STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant J. Hulme Dunford
post office address Bloomington Idaho
2. The point of diversion is in NW $\frac{1}{4}$ of NW $\frac{1}{4}$ Section 7 Township 15S
Range 44 E B.M. located on St Charles Big Creek
(name of source)
tributary St Charles Big Creek in Bear Lake County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

March 30 1894 to Jan 1 1900 c.f.s. or 1500 acre feet

amount: _____ c.f.s. or _____ acre feet

amount: _____ c.f.s. or _____ acre feet

Total claimed _____ c.f.s. or _____ acre feet.

- b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use Irrigation period of use from April 1 to Oct 31 (both dates inclusive)

use Water Livestock period of use from Jan 1 to Dec 31 (both dates inclusive)

use _____ period of use from _____ to _____ (both dates inclusive)

use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of Concrete on

Creek & Earthwork 435'; length is 9.4 feet; height is 8' feet;

width at bottom is 28 feet; with at top is 19' feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

b. Underground water diverting works: is well flowing or pumped _____; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____

capacity of pump is _____ g.p.m.; name and address of well driller is _____

11-4006

attach well logs if available; has there been any change in pump or motor since well was first completed

; if so, give dates and explain

c. Conveying works: length of ditch to place of use is _____feet; width of ditch at top is _____feet;

width of bottom of ditch is _____feet; depth of water is _____feet; grade of ditch per 1000

feet is _____feet; material through which ditch passes is _____;

maximum length of pipe line to first place of use is _____feet; diameter of pipe line is _____inches;

type of pipe _____; grade of pipe per 1000 feet is _____.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible.

d. If water is stored: name of reservoir _____.

total capacity of reservoir is _____acre feet; active capacity of reservoir is _____acre feet;

year construction commenced _____; year completed _____; date first used _____;

period of storage is from _____to _____; is reservoir drained each year _____;

is reservoir on or off stream _____explain _____.

if feeder canal is used give maximum carrying capacity _____c.f.s.; if reservoir is off stream, describe

location of reservoir by 40-acre subdivisions _____.

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and

describe _____.

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

Explain any significant increase in area irrigated since first use, give dates and acreages if known

b. Do you get water through a ditch owned by several users? Yes If yes, give the name of the ditch

The other users and their respective interests in the ditch are (if known) Weldon Peterson, Herron Hemmertt, Roy Boteman, Ben Boteman, Friday Peterson, Ronald Throck

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

The users of the big creek dam all water at the same time and we need all the water at this point, in order to push the water over our meadows. This is a flooding system and we irrigate by flooding the entire area to a point that it fills our border ditches in the respective fields and by controlling the water with gates in culverts & channels we flood the entire lands belonging to all ranchers concerned. Then release the water after desired lands are covered.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all attached information and certifies that all statements are true and accurate to the best of his knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.

2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.

3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:		May 18, 1871	amount:	0.8 c.f.s. or	acre feet
		June 1, 1901	amount:	0.4 c.f.s. or	acre feet
Total claimed:		1.2 c.f.s. or	acre feet		

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
6, 7, & 8. Describe any other uses of water.

9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to it for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.
