DEPARTMENT OF RECLAMATION

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

June 1, 1966

Re: Permit R-1093

Little Valley Reservoir and Ditch Co.
Ovid, Idaho

Dear Sirs:

Under the terms of your Permit No. R-1093 you are required to complete your diversion works on or before Aug. 18, 1966. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, [REDACTED] a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

CARL E. TAPPAN

Gentlemen:

One of the conditions of approval of your water Permit No. R-1093/11-2158 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 18, 1971. Re: Permit No. R-1093/11-2158

Mr. Warren Passey
Little Valley Reservoir & Ditch Co.
RFD
Ovid, Idaho

Dear Mr. Passey:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Dear Sir:

RECEIVED
JUN 14 1966

Department of Reclamation

I am in receipt of your letter dated June 1-66, and am in doubt as to what is wanted. I believe this is in regard to our proposed diversion of water from Miles Creek to Little Valley Reservoir. If this is correct, we have abandoned this plan, as the route for a diversion ditch is too rocky. We ran several surveys but were unable to find a suitable route. If this was the information you wanted, we have given up on this diversion at present.

If it was in regard to the Reservoir in "Little Valley" this is R-1093

Completed and in good use.

If additional information is needed
please advise.

Sincerely

Warren Passey

Re: Permit R-1093

Little Valley Reservoir and Ditch Co.
Ovid, Idaho

Dear Sirs:

Under the terms of your Permit No. R-1093 you are required to complete your diversion works on or before Aug. 18, 1966. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, [REDACTED] a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

CARL E. TAPPAN

Department of Reclamation

Dear Sirs;

About three weeks ago I wrote your office for blank forms for a water storage permit. I neglected to check if our water co had already a water storage permit. This is for the Little Valley Reservoir and Ditch Co. which was organized in 1911 and have been storing water in a small reservoir since. The company was incorporated in 1911. We are working with the Bear Lake County Soil Conservation District to enlarge and raise the height of the dam.

Do you have any record of a water storage permit for the Little Valley Reservoir & Ditch Co in the past ? We have had the State Engineer ,Mr King, check our proposed project.

If there was a water storage permit in the past do we have to have another or just renew the old one? Please advise if you have any information to help us get the project under way. Thanking you in advance I remain,

Very truly yours
