APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R 25601

Permit No. R 615

1. Name of Applicant: CITY OF SODA SPRINGS

Postoffice address: Soda Springs

County Caribou

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the ^{applicant} ~~corporation~~ are:

(a) Cash on hand: \$30,000.00 in special fund for / this purpose

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 240 acre feet per annum.

3. Source of water supply is Soda (Creek) ~~BEAR RIVER~~ 2180, a tributary of Bear River.

4. The outlet of the proposed reservoir is located S. 54° 20' W. / feet, distant from the NE corner of Section 36, Township 8 S., Range 41 E., B. M. and is in the NW ¼ of NE ¼ of Section 36, Township 8 S., Range 41 E., B. M. County of Caribou (bearing)

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Soda (Creek) ~~BEAR RIVER~~.

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located feet distant from (bearing)

the corner of Section , Township , Range , B. M., and is in the ¼ of ¼ of

Section , Township , Range , B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is 60 acres.

(b) The reservoir capacity is 240 acre feet.

7. Height of reservoir dam 10 feet, length at top 280 feet, length at bottom 66 feet, size of outlet feet

by feet. The dam is to be constructed of materials as follows: Reinforced concrete section for 66 ft. with earth abutments for 214 ft.

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Soda (Creek) ~~BEAR RIVER~~ ? Yes

(b) Water stored in reservoir will be carried in the channel of (Creek,) (River,) a distance

of miles to point of diversion located (bearing) feet, distant from the corner of Section

Township , Range , B. M., and in the ¼ of ¼ of Section , Township , Range

B. M.

9. Amount of water claimed from (Creek) (River) (Spring) in addition to that

stored in reservoir cubic feet per second.

10. Water is to be used for Power purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water N. 41° 30' W. / feet, distant from SE Corner of Section 36, Township 8 S., Range

41 E. B. M. and is in the SE ¼ of SE ¼ of Section 36, Township 8 S., Range 41 E., B. M.

(b) Amount of power generated: 187 KVA HXR, under 69 feet head.

(c) Water is to be returned to Soda (Creek) ~~BEAR RIVER~~ (Spring) at a point N. 41° 30' W. 720 feet (bearing)

distant from the SE corner of Section 36, Township 8 S., Range 41 E., B. M., in

the SE ¼ of SE ¼ of Section 36, Township 8 S., Range 41 E. B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: Storage dam is diversion dam.
(Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: (2) Width 6 feet, Height 3 feet.
16. Diversion Canal: Width at bottom 4 feet, width at water line 10 1/2 feet, depth of water 2.5 feet, Dimensions of Flume 5' x 2 1/2' Diameter of Pipe .36 inches; Length of Conduit 1 miles. Average grade per mile 5.28 feet.
17. Estimated cost of Works: Storage Works: \$ 5,000 Diversion Works: \$
18. Time required for completion of work 6 months years.
19. Time required for complete application of water to proposed beneficial use is 6 additional months years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total Number of Acres to be Irrigated

Remarks:

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

Re: Permit No. R 615
City of Soda Springs.

City of Soda Springs,
Soda Springs, Idaho.

Gentlemen:-

A short time ago we received the report of our field engineer on proof of beneficial use under the above numbered permit.

Our engineer found that your reservoir was capable of storing 240 acre feet of the waters of Soda Creek.

The statutory fee in connection with this proof will be \$5.00, and upon receipt of this fee a license will be issued.

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

Re: Permits No. 17348 & R-615
City of Soda Springs

S. E. MATTHEWS, Mayor
Soda Springs, Idaho

Dear Sir:

This will acknowledge receipt of the following papers in connection with Permits No. 17348 and R-615, to-wit:

Deposition of the holder and depositions of two witnesses for proof of completion of works under Permit No. 17348.

Deposition of the holder and depositions of two witnesses in connection with beneficial use proof under Permit No. R-615.

Affidavits of publication in connection with both of these proofs from the Soda Springs Sun.

These proofs will both be held in abeyance until such time as the Field Engineer of this department has an opportunity to make an examination in connection with each of them.

Furthermore, it will be of interest to you to know that a protest has been filed against proof of completion of works under Permit No. 17348 by T. E. Thompson who alleges that the City of Soda Springs has not complied with the terms of the permit with reference to the time when one-fifth of the work should have been completed.

Therefore, at such time as we receive the Field Engineer's report covering these proofs, we shall give consideration to the protest as well as your proof. Whatever action is taken by the department will be largely dependent upon the engineer's findings.

Very truly yours

Deputy Commissioner of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO,

County of CaribouI, S. E. Matthews, being first duly sworn upon his oath, deposes and says, that he is the duly elected, qualified and acting Mayor of the City of Soda Springs, in Caribou County, Idaho and makes this verification for and on behalf of said City

First: That Said City is the holder and owner of Permit to Appropriate the Public Waters of the state of Idaho, No. R-615, and that his postoffice address is Soda Springs State of Idaho

Second: That the name of the stream from which said water is to be diverted is Soda Creek

Third: That the point of diversion of said water is S54° 20' W. 2180 feet from the N. E. corner of Sec. 36, Twp. 8 So., R. 41 E. B. M. & in the NW 1/4 NE 1/4 of said Sec. 36

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by Feb. 4, 1937

Fifth: That the use for which said water is intended is Electrical power purposes

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(not)~~ fully completed and consisted of the following:

I. Kind of works: Reservoir, dam, ditch, flume, and pipe
(Reservoir, dam, ditch, flume, pipe or otherwise.)

II. Dimensions of work:

(a) Height of dam 10 feet, length of dam at top 280 feet, length of dam at bottom 66 feet. Material used in construction Reinforced concrete section for 66 feet with earth abutments

(State whether wood, earth, stone or concrete.)

(b) Capacity of reservoir 240 acre feet.

(c) Size of headgate 2 Width 6 feet, height 3 feet.

(d) Conduit ditch width at bottom 4 feet, width at water line 11.5 feet, depth of water 2.52 feet; diameter of pipe 36 inches, average grade per mile is 5.28 feet. Length of conduit is 1 miles.

Seventh: That said works are capable of conducting to the place of intended use

50 second feet of water.

Eighth: That water appropriated under said permit is available for the operation of an electrical power plant to generate electrical current for the said City of Soda Springs

Ninth: Remarks: That the water and/or works herein referred to was completed, and put to beneficial use on the 10th day of Nov. 1936.

Subscribed and sworn to before me this 26th day of January, 1937

My commission expires Sept. 18, 1939

NOTICE OF PUBLICATION

Notice of Proof Application of Water To Beneficial Use.

Notice is hereby given that at 10:00 A. M. on the 17th day of April, 1937, at Soda Springs, County of Caribou, State of Idaho, before Hon. D. K. McLean, Probate Judge, proof will be submitted of the application to beneficial use of 240 acre feet per annum of the waters of Soda Creek in accordance with the terms and conditions of Permit No. R-615 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are City of Soda Springs, Soda Springs, Idaho.

The use to which said water has been applied is for generation of electrical power.

The amount applied to beneficial use is 240 acre feet per annum.

The place where said water is used is at the Soda Springs Municipal Hydro-Electric Power Plant No. 3 and situated in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, T. 8 S., R. 41 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Soda Springs power plant canal No. 3.

The right to the water from such works is based upon Permit No. R-615.

The source of supply from which such water is diverted is Soda Creek.

The date of the priority which said user is prepared to establish is July 23, 1936.

R. W. FARIS,
Commissioner of Reclamation
First Pub. Feb. 25—last Mar. 18

BOISE, IDAHO

Permit No. R-615

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. J. O. Wallace, Pharmacist, Soda Springs, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. A municipal Corporation, The City of

Ans. Soda Springs, located in Caribou County, Idaho, I am chairman of the Board of the City Council of said City, acting as Mayor in the absence of S.E. Matthews.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. R-615, ^{Aug. 4,} ~~July 26,~~ 1936, date of priority July 23, 1936.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Soda Creek, point of ^{outlet} diversion about 25 rods West from the center of the ^{NW}NE $\frac{1}{4}$ of Sec. 36, Twp. 8 South, Range 41 East B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Works consist of a dam reinforced concrete 66 feet, earth abutements 214 feet, width of headgate, 2 headgates 6 feet wide, ^{Height 3 feet} canal bottom width 4 feet, water line width 11 $\frac{1}{2}$ ft. Depth of water 2 $\frac{1}{2}$ ft. Pipeline to turbine 36 inches, Length of Canal 4000 ft. Average grade 5.28 ft. per mile. Cost Approximately \$20,000.00. Name--Power Plant No. 3 Canal.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is to be used to develop electric energy by running it through turbine connected with electric generator in powerhouse located in SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 36, Twp. 8 South, Range 41 East. B. M.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water delivered to turbine through a penstock 36 inches. with 69 foot fall to turbine at the bottom for the purpose of generating 250 horsepower.

R-615

QTA 11014

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 50 sec. ft.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit issued to the City of Soda Springs who is the present holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of the water at present in Soda Creek has been diverted and run through diversion works and through turbine which has operated generator which has developed power which has been delivered over power lines to the City of Soda Springs.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

(Sign)

J. Wallace

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Soda Springs, County of Caribou, State of Idaho, on this 17th day of April, A. D. 19 37.

BOISE, IDAHO

PERMIT NO. R-615

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T. J. Corrigan, age 64 years, Soda Springs, Idaho, occupation
Retired Farmer, Soda Springs, Idaho.

Ques. 2. Are you acquainted with The City of Soda Springs, the holder of Permit No. R-615? How long have you known him and where does he reside?

Ans. I have lived at Soda Springs for 35 years and the City of Soda Springs, is a municipal corporation located in Caribou County.

Ques. 3. Have you read or heard read said Permit No. R-615, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Soda Creek, Diversion at Head-gates, the headgates being located about 25 rods West from the center of the NE $\frac{1}{4}$ of Section 36, Twp. 8 South, Range 41 East B. M. and the ditch running from there in the Southerly direction to the Power house which is located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 36, Twp. 8 S. Range 41 East B. M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will take about 50 sec. ft. I have seen 40 Sec. ft. conveyed to said plant.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Electric Power at Soda Springs, Idaho. This is a Power Plant for the purpose of developping electric current for the use of the general public in the City of Soda Springs.

R-615

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Applied for Electrical Power to the full ~~extent~~^{flow} of the creek.
by diversion of all of said waters of said creek through a ditch and through
a turbine to which is connected an electrical generator.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~Yes~~. As a Member of the City Council, and as a resident of the
City of Soda Springs, I am interested but as an individual I own no interest
in the Power Plant or the Diversion works.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Continuously in the form of Power since the beginning of
operation, I have seen Soda Creek diverted through the ditch and
through the Powerhouse for the development of electric energy.

(Signed) *J. K. Corrigan*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Soda Springs, County of Caribou, State of Idaho, on this day of 17th. of April, A. INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO,

April 7, 1937

D. K. MC LEAN, Probate Judge
Soda Springs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. R-615

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On April 17, 1937, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Soda Springs, Idaho before D. K. McLean, Probate Judge

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

R. W. FARIS

Commissioner of Reclamation.

MAYOR, City of Soda Springs
Soda Springs, Idaho

Dear Sir:

This will acknowledge receipt of notices in duplicate for publication in connection with proof of completion of works under Permit No. 17347 and beneficial use proof under Permit No. R-615, and also your authorization to have these notices published in the Soda Springs Sun of Soda Springs, Idaho.

Copies of the notices have been mailed to the newspaper with instructions to publish them once a week for four consecutive weeks prior to April 17, 1937. About ten days prior to this date, depositions consisting of one for the holder and one each for two witnesses will be mailed to D. K. McLean, Probate Judge, at Soda Springs so that he will have them in ample time for the proof.

On the date designated, you should appear at Judge McLean's office with two disinterested witnesses, who are familiar with the terms of these permits and the works constructed thereunder, for the purpose of executing the depositions.

Re: Permit No. R-615

MAX SNELL, Supt.
Light & Water Dept.
Soda Springs, Idaho

Dear Sir:

We are herewith returning the affidavit for proof of completion of works which you recently submitted to this department. As you know, proof of completion of works has not been made under Permit No. 17348, otherwise you would not have included it in this affidavit.

However, one can not offer proof on two permits in the same instrument. Furthermore, the quantity of water claimed is sufficient under Permit No. 17348 to require publication, so at the time when proof is submitted, different forms must be used from the one in question.

We are therefore enclosing another blank affidavit with the request that you go before a notary with Permit No. R-615 and make your proof purely with respect to Permit No. R-615, which is due on February 4th. Kindly return the affidavit after this has been done, with a fee of \$5.00.

Proof under Permit No. 17348 will not be due until August 5th and about sixty days prior to that time, you will receive the necessary forms for publication, together with instructions for handling them.

Very truly yours

Chief Clerk & Office Engineer

DEPARTMENT OF RECLAMATION

BOISE
DEC 5 - 1936

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

CITY OF SODA SPRINGS
Soda Springs, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. R-615..... you are required to complete your diversion works on or before Feb. 4, 1937..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided, the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS

Commissioner of Reclamation.

Re: Application of T. E. Thompson for
change of point of diversion.

My dear Faris:

Supplementing my letter to you of August 24th in regard to the above matter, desire to say that I wish you would hold any decision you intend to make in the above entitled matter in abeyance until some future date, as I desire to brief up one phase of the matter that I did not go into extensively at the time of filing my former brief. The question is this, Mr. Faris, is the permit of the City of Soda Springs a valid one. I raise this question by reason of the fact that the city authorities admitted on the stand that the required work had not been done and they knew it had not been done at the time the extension was obtained.

It might require a direct action to set aside this permit, and that is the particular phase of the matter that I want to go into. If an extension could not be granted, then, of course, the permit is void, and with no permit the City of Soda Springs, of course, could not make any objections to our transfer of the water.

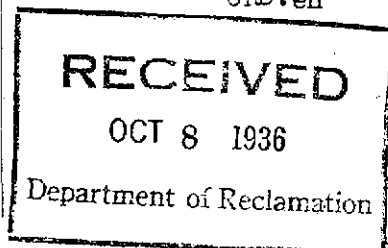

I will brief this point up in the next ten days as to the procedure to be followed in this matter and you will hear from me.

With kindest personal regards, I am,

Very truly yours,

O. R. BAUM

GORDON C. SMITH
Civil Engineer
Boise, Idaho

Dear Mr. Smith:

In reply to your verbal inquiry of this date, I wish to advise you that the dam to be constructed under the provisions of this permit is not of sufficient height to require separate plans and specifications.

The dam, as set out in this permit, is to be constructed to a height of 10 feet with a top length of 280 ft. and a bottom length of 66 ft. The state law provides for the filing of separate plans and specifications for a dam only when its height exceeds 10 ft.

I trust that this will be sufficient to answer your questions.

Very truly yours

Chief Clerk & Office Engineer

Permit No. R-615

This proof is for Beneficial Use

In Water District No.

1. Name of applicant City of Soda Springs
2. Source of water supply: Soda Creek
Outlet
3. Location of point of ~~diversion~~ Outlet: Is in the NW 1/4 of Section 36
T. 8 S. R. 41 E. County of Caribou

4. Describe works as they exist, giving dimensions and capacities of same: Diversion works

include, Earth & Concrete Dam. 212 ft long x 12 ft high, 1-sluice and
2-Conal gates. Each 69" x 39", operated by screw stems. Ditch 4 ft
wide and 2 1/2 ft deep. Penstock of 36" steel pipe. Turbine operated
under about 76 ft head and electric generator.
Capacity of diversion works 50 Second feet.

5. Water is used for: Power

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River

Remarks

Examination for Beneficial Use

County Caribou

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
-
