Dear Mr. Woodall:

We are enclosing a certificate of completion of works on your flow permit number 19086 for 30 second feet of the waters of springs at the head of Spring Creek. Examination was made for beneficial use proof and depositions were signed for beneficial use proof as well as completion of works proof, but the notice of intention was not published for beneficial, so that proof still must be advertised.

We are also enclosing certificate of completion of reservoir and right to store water and License #4131 issued on your storage permit number R-693 for 50 acre feet of the waters of Spring Creek to be used for rearing fish. The priority date is August 8, 1940.

Receipt No. 18226 for your \$5.00 completion of works proof fee on permit number 19086 and your \$5.00 completion of works and your \$5.00 beneficial use fee on permit number R-693 is also enclosed.

Gentlemen:

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, and the affidavits of proof of publication from the Soda Springs Sun, all in connection with Beneficial Use proof under the above numbered permits.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof. Upon receipt of which a license will be issued.

Very truly yours,
E. V. BERG.

Dear Mr. Spofford:

I thank you for your enclosures of May 15th and in regard to the same will say that while the business of the application will be only for the purpose of fish culture it is their intention to deepen, what is commonly known as Spring Creek, on the south boundary of Soda Springs, Idaho.

This will be accomplished by means of several dams which will be constructed purely for the purpose of ariation of the waters. This will cause only a slight reservoir but I believe it would be advisable to secure a storage permit.

The contemplated water storage will in no way interfere with water users below the point of diversion. Will you, therefore, please advise me and send me any papers necessary to secure application for storage permit.

Thanking you for your courtesy in this matter I am,

Yours very truly,
