In reference to your letter of August 27, 1970, please find enclosed a copy of Water License No. 11-2106, 11-2102, 11-2107, and 11-2141. We are enclosing a copy of Water License No. 11-2109, with a copy of our field notes, and a copy of the beneficial use forms. As to your request of Monsanto's Permit No. 11-2138, please be advised that it has been cancelled, as to their request. A copy of that request is also enclosed. We have no weir readings or other type of discharge notes from that system, as beneficial use was not submitted, and an examination of the system was never made.

The fee for the enclosed copies will be \$3.50. If we may be of any further assistance in this matter, please feel free to contact us.

In connection with 11-2109, showing a priority date April 23, 1953, for 2.84 cfs, I was advised that there was a filing April 4, 1953, for 7.1 cfs and I am wondering if this was the same permit or if the information was correct. In any event, if in fact a license was issued on this permit (11-2109) could you furnish me in addition to a copy of the license a copy of any extension of time granted, a copy of the field notes and proof presented at the time the proof of application was made, and a copy of the publication.

Could you also furnish me a copy of the weir readings on the Monsanto discharge during the period of time that the water would have been used by the applicant in applying the same to beneficial use. I assume that these readings would be turned in by the Soda Creek water master.

Gentlemen:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

I need to determine the volume of water used annually by your corporation, both from the well specified on this permit and all other wells used by the company. If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

Very truly yours,

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Caribou County Sun all submitted in proof of completion of works and beneficial use on Permit No. G-32537.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
