Dear Mr. Thompson:

Reviewing your letter of January 30, 1970, please be advised that in order for you to change the beneficial use proposed under Permit No. 32387/11-2139 from beaver propagation to agricultural purposes, it will be necessary for you to file an Application for Amendment.

The beaver propagation purposes being a nonconsumptive use of the water, when changed by amendment to agricultural purposes, a consumptive use, this change if approved, will require that the proposed priority of June 4, 1965, be reduced to the date of the amendment, inasmuch as this is a new use of the water.

Inasmuch as we are under a mandatory permit system to appropriate groundwater in the State of Idaho, it will be necessary for you to successfully make this amendment or file a new application for permit in order to use the well in question for the 1970 irrigation season. We are enclosing a partially completed Application for Amendment form.

Mr. R. Keith Higginson
State Reclamation Engineer

Dear Sir:

I would like to make a correction in the intended use of water in the Notice Of Existing Permit. Since my beaver ranch was closed in 1968, the water was used half the 1968 irrigating season and all the 1969 irrigating season for irrigation. Therefore, I would like to change the intended use to irrigation or agricultural purposes for not less than 1.6 cubic feet per second. Also, I would appreciate instructions on furnishing proof of application of this water to beneficial use.

Very truly yours,

Re: Permit No. G-32387 (New No. 1102139)

A. M. Thompson
Box 68
Georgetown, Idaho 82239

Dear Mr. Thompson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
