Statutes requires a field inspection in connection with the proofs on Permit # 27289 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday morning

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Gass:

I am glad to learn that Mrs. Edith Wutherich and the Montpelier Irrigation Company have reached an agreement which will obviate the necessity of holding a hearing or somehow dispose of the protest.

The requirement of an examination by a field engineer is statutory and applies to all permits whether protested or not, consequently the field engineer in due course will make this examination, but it will not be because of the protest filed against this proof.

Dear Mr. Carter:

This is to advise you that Mrs. Edith Wuthrick, the applicant in re above captioned subject matter, and the Montpelier Irrigation Company, the protestant in re the above captioned matter, are negotiating settlement in regard to the water rights involving Yeaman Creek. At present the terms and conditions of the settlement have been agreed upon verbally, but will be resolved and reduced to an agreement in writing.

Thus, at the present time, if the settlement is agreed upon and accepted by all parties concerned, it will be unnecessary to have a field engineer examine the premises, the land, etc. At this time request is made that you cease arrangements for a field examination, and please acknowledge the request.

If you so desire, we shall be happy to give you a copy of the agreement entered into by the parties concerned in order for you to close your file.

Gentlemen:

The Montpelier Irrigation Company, a corporation of Montpelier, Bear Lake County, Idaho, hereby files its protest against the issuance of a License to Mrs Edith Wuthrich to appropriate one cubic foot of water per second of time of the waters of Yeaman,s Creek, in Bear Lake County, Idaho, upon the following grounds:

Ist. Protestant alleges that Yeaman,s Creek in Bear Lake county, Idaho, is a direct tributary of Montpelier Creek and there is no unappropriated water of Montpelier Creek or any of its tributaries, for agricultural purposes. That all of the water of said Montpelier Creek and its tributaries have heretofore been appropriated and applied to beneficial use by protestant and others, and that the right to the use of the water of said Montpelier Creek for agricultural purposes were heretofore adjudicated and Decreed by the District Court of the Fifth Judicial District of the state of Idaho, In and for the County of Bear Lake, in a certain action entitled E. Strong, R. Livingston & Sidney Stevens, Plaintiffs vs. The Montpelier Irrigation Company, a corporation, et al. said Decree being dated the 20th day of February, 1902, and that since the entry of said Decree all the waters of said Montpelier Creek and its tributaries have been used and applied to a beneficial use during each and every year, during the irrigation season, since said time.

2nd. Protestant denies that said Edith Wuthrich has applied to beneficial use, for agricultural and domestice purposes, I cubic foot per senond of time of the waters of said Yeaman Creek in accordance with the terms and conditons of permit No 27289. Protestant admits that said applicant diverted water from said Yeaman Creek under said permit on approximately 10 acres of land but denies that said applicant had a right to do so for the reason that said water has heretofore been appropriated and that there is no unappropriated water for irrigation purposes flowing in said Yeaman Creek.

Livingston & Sidney Stevens, Plaintiffs vs. The Montpelier Irrigation Company, a corporation, et al. said decree being dated the 20th of February, 1902, and that since the entry of said decree all the waters of said Montpelier Creek and its tributaries have been used and applied to a beneficial use during each and every year, during the irrigation season, since said time.

2nd. Protestant denies that said Edith Wuthrich has applied to beneficial use, for agricultural and domestic purposes, 1 cubic foot per second of time of the waters of said Yeaman Creek in accordance with the terms and conditions of Permit No. 27289. Protestant admits that said applicant diverted water from said Yeaman Creek under said permit on approximately 10 acres of land but denies that said applicant had a right to do so for the reason that said water has heretofore been appropriated and that there is no unappropriated water for irrigation purposes flowing in said Yeaman Creek.

WHEREFORE, protestant prays that said applicant be denied a license to appropriate any of the water of said Yeaman Creek.

The Montpelier Irrigation Company, a corporation of Montpelier, Bear Lake County, Idaho, hereby files its protest against the issuance of a license to Mrs. Edith Wuthrich to appropriate one cubic foot of water per second of time of the waters of Yeaman Creek, in Bear Lake County, Idaho, upon the following grounds:

Protestant alleges that Yeaman Creek, in Bear Lake County, Idaho is a direct tributary of Montpelier Creek and there is no unappropriated water of Montpelier Creek or any of its tributaries, for agricultural purposes. That all of the water of said Montpelier Creek and its tributaries have heretofore been appropriated and applied to beneficial use by protestant and others, and that the right to the use of the water of said Montpelier Creek for agricultural purposes were heretofore adjudicated and decreed by the District Court of the Fifth Judicial District of the state of Idaho, in and for the County of Bear Lake, in a certain action entitled E.
