APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. G-25252

Comes now Orlando N. Kunz, and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-25252. That the point of diversion is described in said permit as being located SE¹/₄ NW¹/₄ Section 32, Twp. 13 S. Range 45 E.B.M. That he now requests that the point of diversion be changed to a point located NE¹/₄ NW¹/₄ - Sec 5 T 14 S - R 45 E.B.M. That his reasons for desiring to make such change are as follows: Former location was a dry well. We have drilled a test well at new location and found water. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Dear Sir:

We are in the process of making a loan to Mr. Wendell R. Kunz and Donna L. Sorenson, the widow of the late Donald S. Sorensen.

Mr. Kunz is presently irrigating the farm with a sprinkler system from a well located on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, Township 14 S, Range 45 EBM.

We would appreciate it very much if you would check your records and indicate the amount and priority date for the well and any other information you have in connection with the well. Thank you.

Yours very truly,

ORDER REINSTATING PERMIT

WHEREAS, Permit No. G-25252 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: November 4, 1958; and,

WHEREAS, legal notice was duly published in the Paris Post, of Paris, Idaho, showing that the proof would be made on the 27th day of October, 1958; and

WHEREAS, there was a protest alleging that diversion of the subterranean water from the well, starting May 30, 1958, dried the spring on the protestants land by June 16, 1958; that about July 22, 1958, the pumping was stopped and the spring returned to normal flow in about one month; and the holder of the permit with his two witnesses did not complete the depositions of completion of works and beneficial use of the water on account of said protest; and,

WHEREAS, the protestant withdrew his protest, upon agreement with the holder of the permit, signed September 26, 1959; and

WHEREAS, the holder and his witnesses completed the depositions of completion of works and beneficial use of the water on May 6, 1961, pursuant to legal notice duly published in the Paris Post, without protest;

IT IS, THEREFORE, Hereby Ordered that said Permit No. G-25252 be, and the same is, hereby reinstated, and that a certificate of Completion of Works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Department of Reclamation, at Boise, Idaho, this 29th day of August, 1962.

Re: Permit No. G-25252

Orlando N. Kunz
Bern, Idaho

Dear Mr. Kunz:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25252 shows the well is (~~now~~) capable of conveying 169 miner's inches, or 3.38 c.f.s. of water for the irrigation of 400 acres.

Upon receipt of the statutory fees, totaling \$ 25.00, which consists of a Completion of Works fee of \$5.00 and License and Certificate of Water Right fee of \$20.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of November 1, 1954 to the use of 3.38 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 5 for irrigation of 400 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 32, T. 13 S., R. 45 E., B.M.; W $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 5, T. 14 S., R. 45 E., B.M.

Department of Reclamation:

Dear Sirs:

We would like to advise you that we are pumping from our well and would like to have your engineer come & give his final okay on it so we can get it all finished up on our filing on this well. He was here last fall but we were through pumping then & said to let him know when we were pumping this year. We will be soon through for another year so we would appreciate it if someone could come down & go over this well for us. This is pertaining to Permit No. G 25252. Thank you very much.

Dear Mr. Kuna:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Paris Post, all submitted in proof of completion of works and beneficial use on Permit No. G-25252.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

We find the following error in the proof of Notice of Publication for Completion of Works and Application of Water to Beneficial Use on the above numbered permit, in the name of Orlando N. Kunz.

In the first paragraph, and in the paragraph numbered 2 and 3 the cubic feet per second should read $4\frac{1}{4}$, instead of $4\frac{1}{2}$ as shown.

When correction has been made please send us another tear sheet for our files.

Dear Mr. Ems:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-25252. The proofs are to be made at 10:00 o'clock A.M., on the 24th day of May, 1961, before John E. Hoge, Paris, Idaho, Notary Public.

As of this date we have mailed the Notice to the Paris Post with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Kunz:

Returned herewith are the depositions of holder and witnesses and affidavit of publication. Also enclosed are Forms 36 and 11 with instructions.

The legal notice shows that the proofs were to have been made October 27, 1958, whereas they were actually made March 17, 1961.

Our letter of October 2, 1959 requested that you submit the depositions if they were made October 27, 1958 with the affidavit of publication. Forms 36 and 11 were also enclosed to be used if the depositions were not made.

It is necessary to readvertise the legal notice and set a new date for making the proofs of completion of works and beneficial use of the water.

Kindly complete the two forms 36 and form 11. Return the three forms to this office and the paper will be notified to print the notice.

Mr. Orlando W. Kunz

Dear Mr. Kunz:

Enclosed is copy of protest by Martin M. Kunz which he has filed against the proofs on your well permit No. G-25252.

If the facts regarding the flow from the spring are as stated in the protest it would appear that pumping your well does affect the spring's flow. Such being the case, some effort on your part to make a suitable adjustment or agreement with Martin Kunz might avoid the necessity of calling a hearing with its consequent time and expense and/or future litigation.

Martin Kunz exhibits a fair and reasonable attitude in a letter stating that he does not wish to deprive you of the use of your well, provided he is somehow assured of a constant and sufficient supply of water for his stock.

This appears to be a controversy which might be settled by a friendly agreement rather than following out the procedure prescribed by the Idaho Code.

Further action on the proofs on your permit will be withheld awaiting developments in the case and I will ask that you and Martin Kunz endeavor to work out a mutually satisfactory settlement.

If this can be accomplished, a written agreement setting forth the conditions under which you could pump your well, signed by both you and Mr. Martin Kunz could be filed in this office and with such in hand it might be possible to license your permit without further argument.

In Re: Permit No. G - 25252
Orlando N. Kunz

Dear Mr. Carter:

I noticed in the Paris Post the Notice of Proof of Completion of Works pursuant to Application of Orlando N. Kunz and I am enclosing herewith a Protest pursuant to the Water Code of the State of Idaho, and particularly Sections 42-233A and Section 42-233B, Idaho Code.

The reason why I am protesting is because the well of Mr. Orlando N. Kunz is located a very short distance from a spring which I own and from which I obtain sufficient water to water 500 head of cattle the year 'round. When Mr. Orlando Kunz starts to pump the water from his well it immediately dries up my spring thus depriving my cattle from any source of water and causing me considerable expense in trying to get water to my cattle.

I do not want to deprive Mr. Orlando Kunz of using the well if the spring can be protected so that its source is not affected by the pumping of the water by Mr. Orlando Kunz, but, evidently the well is located in a critical ground water area and the pumping thereof dries the spring belonging to myself ~~and prior appropriators~~, and it seems to me, under the Idaho Code, I am entitled to be protected since the waters of the spring were appropriated and put to beneficial use many years ago by my predecessors in interest and I have used it since 1949, the year in which I purchased the property.

If this is not the proper method of protecting my rights, would you kindly advise me?

Respectfully yours,

Martin M. Kunz

II.

That the said Orlando N. Kunz drilled the well referred to in his application in the Fall of 1957 and on May 30, 1958 began to pump water from said well. That the pumping of said water lowered the water table within the vicinity of said well and by June 16, 1958 the spring belonging to protestant dried up completely thus depriving the livestock belonging to protestant of any water whatsoever from said spring; that on or about July 22, 1958, applicant Orlando N. Kunz stopped pumping the water from said well and it took approximately one month for the spring to return to its natural flow. Later, the applicant began the pumping of the water from the well and again the spring dried up and has not returned to its natural flow at the time of this protest. Protestant further avers that the said spring has never, to his knowledge, ceased to flow adequate water for the watering of the livestock as aforesaid until applicant started to pump from said well.

III.

Protestant further avers that the said well is located in a critical ground water area as is defined by Section 42-233A, Idaho Code, and other Sections of the said Code; and that if the application of applicant is allowed or permitted it then should be under such conditions and under such terms as would protect the water rights of protestant in the spring, as aforesaid.

IV.

That pursuant to Notice published September 25, 1958, applicant seeks to establish priority as of November 1, 1954, and protestants avers that the well was not drilled until the Fall of 1957, and that the first water used therefrom was on May 30, 1958, and that the date of priority should not be prior to the date applicant began to use the water for beneficial use and then, only subject to the date of priority of protestant to the water of the spring above described.

PERMIT TO APPROPRIATE GROUND WATER
PERMIT NO. G-25252

TO: Mr. George N. Carter
State Reclamation Engineer
State of Idaho
Boise, Idaho

COMES NOW, the undersigned, MARTIN M. KUNZ, of Montpelier, Bear Lake County, Idaho, and hereby protests to the Application of Orlando N. Kunz of Bern, Idaho, for permit to use water for irrigation purposes from well drilled in the Southeast Quarter of the Northwest Quarter of Section 5, Township 14 South, Range 45 E.B.M. and protests the priority which the said applicant seeks as set forth in Notice published September 25, 1958 and for grounds of protest alleges:

I.

That the undersigned is the owner of land adjacent to the land of applicant, Orlando N. Kunz, to-wit: The Northwest Quarter of the Northwest Quarter of Section 5, Township 14 South, Range 45 E.B.M; that there is existing upon said land belonging to the protestant a spring, the water from which protestant and his predecessors in interest have used for many years for the purpose of furnishing water to more than five hundred head of livestock. That protestant has used said spring for said purpose since he purchased the above described land in 1949 and his predecessors in interest used said spring for said purpose for many years prior thereto. That the said spring furnished sufficient water for more than five hundred head of livestock during the entire period of ownership until the same was interfered with by the withdrawal of water from the well of applicant, Orlando N. Kunz.

II.

That the said Orlando N. Kunz drilled the well referred to in his application in the Fall of 1957 and on May 30, 1958 began to pump water from said well. That the pumping of said water lowered the water table within the vicinity of said well and by June 16, 1958 the spring belonging to protestant dried up completely thus depriving the livestock belonging to protestant of any water whatsoever from said spring; that on or about July 22, 1958, applicant Orlando N. WHEREFORE, protestant prays that the application of the said Orlando N. Kunz be denied, and if it be granted, the Order granting it should specify that the permit is in all respects subject to and inferior to the rights of protestant to the waters of the spring above set forth, and that the waters from the said well shall only be used when it does not interfere or lessen the water from the spring aforesaid as is provided in Section 42-233B, Idaho Code; that such further order be made that will protect the rights of protestant of the waters of said spring as stipulated by the Statutes of the State of Idaho pertaining to ground water and the appropriation thereof.

Mr. Orlando N. Kunz

Dear Mr. Kunz:

This will acknowledge receipt of the Notice of Proof of Completion of Works and Application of Water to Beneficial Use in connection with Permit No. G-25252.

The notice seems to be in good form down to Question (4), however our permit record shows the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, Township 14 South, Range 45 East, rather than the SE $\frac{1}{4}$ NW $\frac{1}{4}$ as given in the publication notice.

If the publication notice is correct, an amendment is necessary to change our records to the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and we are enclosing a form for that purpose.

We are also enclosing a new set of forms for Notice of Proof as under Question (4) and (5) there is considerable information that is not necessary in a publication notice. Please delete that portion which we have drawn a line through.

Please make the corrections and return to this department as soon as possible.

Very truly yours,

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-25252

Comes now Orlando N. Kunz of Bern, Idaho, and
representative the State Reclamation Engineer of the State of Idaho:

That he is (was) the owner and holder of Permit to appropriate the Pub-
lic Waters of the State of Idaho, No. G-25252.

That the point of diversion is described in said permit as being located,
in SE1/4 of Sec. 5, Twp. 14 South, Range 45 East of Boise Meridian.

That he now requests that the point of diversion be changed to a point
located in the SE1/4 of Sec. 5, Twp. 14 South, Range 45 East of Boise
Meridian.

That the reason for desiring to make such change is as follows:

I find that I made an error in measurement as to correct location when
I made application for permit.

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

RE: Permit No. G-25252

Date September 2, 1958

Orlando N. Kuntz

Bern, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-25252 are due not later than November 4, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Attention: Ferris M. King

Dear Mr. King:

Orlando Kunz filed for Permit No. G-25252 on November 1, 1954, for 12.8 cubic feet per second from a well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, Township 14 South, Range 45 East, for irrigation of 640 acres in the W $\frac{1}{2}$ Section 32; NE $\frac{1}{4}$ Section 31; Township 13 South, Range 45 East and W $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ Section 5; Township 14 South, Range 45 East, B.M.

The well driller reported a 16 inch well drilled 160 feet deep with standing water at 6 feet. The pump test shows 1800 gallons per minute with 135 foot drawdown. Struck first water in a layer of brown clay and small amount of gravel between 10 and 38 foot depth. Found water most of the distance to sandstone at 145 foot depth.

We can send you a copy of the Permit, if desired. There would be a \$2.50 charge to cover the cost of making the photo-copy.

Dear Mr. Kunz:

We acknowledge receipt of your letter of February 21, 1957, regarding the permit captioned above. We have taken into consideration what you said regarding the completion of the works in connection with the permit (that you had had no luck with the first well previously drilled and that you are putting in another well in a different location) and have enclosed an Application for Extension of Time for the completion of works and beneficial use proofs. These proofs were due November 4, 1956. Had you of made an application for an extension prior to November 4, 1956, same would have been granted. We can not guarantee approval of the Application for Extension of Time we have enclosed for you to fill out. It will be necessary that you state very clearly all of the work that has been done by you in the past in connection with obtaining water under this permit.

We have also enclosed a form of Application for Amendment which is necessary to change the point of diversion as described in the original permit to a point or location of your new well. Please complete both applications and return to this department.
