INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Application for Transfer No. 11-2108/11-2132

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your application for transfer of a water right. The application has been assigned the above identification number. Please refer to this number in all future correspondence.

This office is currently in the process of advertising the application in the Caribou County Sun on March 15 & 22. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before final action is taken. If the protest is not resolved by the involved parties this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. Department personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a final processing of the application is complete, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

License No. G-23944

Robert W. Hubbard & Sons, Inc.
Soda Springs, Idaho

Dear Mr. Hubbard:

License No. G-23944 shows 1.96 c.f.s. from two wells in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, priority March 27, 1953, to irrigate land in SE $\frac{1}{4}$, Sec. 8; NE $\frac{1}{4}$, Sec. 17, T. 9 S., R. 41 E., the same land as described in your new permit which claims 3.5 c.f.s. from one well in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8.

In case the new well is good, you can request a transfer of water right, point of diversion, for the licensed water right and a form will be sent to you.

The transfer requires a legal notice for two issues in a county paper, cost generally less than \$10.00, plus \$1.00 fee to this office. That would hold your early priority for 1.96 c.f.s.

Very truly yours,

RALPH W. THOMAS, Deputy

Soda Springs, Idaho

Dear Mr. Rasmussen:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-23944, Robert W. Hubbard, Grace, Idaho, shows that his two wells are capable of conveying 98 miner's inches (1.96 c.f.s.) of water for irrigation of 189 acres in the SE $\frac{1}{4}$ of Section 8 and the NE $\frac{1}{4}$ of Section 17, all in Township 9 South, Range 41 East, B.M. The record of the permit does not list the land in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, therefore, we have enclosed an application for amendment form for this purpose and ask that you please have it signed and return it.

189 Upon receipt of the amendment, mentioned above, and the statutory fees, total of \$21.00, we will issue to Mr. Hubbard the Certificate of Completion of Works (for which the fee is five dollars) and the License (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 27, 1953, to his use of 1.96 second feet of subterranean water with the points of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, for irrigation of 200 acres in the SE $\frac{1}{4}$ of Section 8 and the NE $\frac{1}{4}$ of Section 17, all in Township 9 South, Range 41 East, B.M.

Gentlemen:

We have checked corrected notice on Permit No. G-23944 of Robert Hubbard appearing in your issue of January 20 and find same to be correct with one small exception.

The words "both in" in the beginning of the thirteenth line should be omitted.

Please make this correction in your subsequent issues.

Gentlemen:

We have checked the notice of Robert Hubbard's Permit No. G-23944 appearing in your issue of January 13 and find a rather important error as follows:

The tenth, eleventh and twelfth lines seem to be confused.

These lines should read, "(4) four cubic feet per second of the waters of Subterranean Waters from two wells, both in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 8, Twp. 9 S., Range 41 E., B.M."

Please check with the original copy and see that the correction is made in your subsequent issues.

RE: Permit No. G-23944

Mr. Francis J. Rasmussen
Attorney At Law
Soda Springs, Idaho

Dear Mr. Rasmussen:

We return Mr. Robert W. Hubbard's application for amendment to the point of diversion in Permit No. G-23944 which has been approved by the State Reclamation Engineer and recorded in this Department.

The amendment carries with it the same priority as the original permit, namely, March 27, 1953, and it also carries the same conditions in regard to Completion of Works and Beneficial Use, that is, two years from approval of the original application or until April 2, 1955.

However, if Mr. Hubbard is not prepared to make the proofs at that time, he may file an Application for Extension on a form furnished by this Department.

We return the original Permit No. G-23944 which was included with the application for Amendment.

Dear Mr. Rasmussen:

We have your letter of February 27, 1953, in which you state that Mr. Robert W. Hubbard is desirous of obtaining a permit to drill a well on his farm and enclosing his check for \$5.75.

An application for permit should be made on Form 3, enclosed, according to instructions in the pamphlet also enclosed.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

We hold to Mr. Hubbard's credit the check for \$5.75 above referred to, to be applied as filing fee when the application is filed in this department.

Dear Sirs:

Robert W. Hubbard is desirous of obtaining a permit to drill a well on his farm. The necessary information is enclosed herewith as is the filing fee :

Robert W. Hubbard, Grace, Caribou County, Idaho. The waters to be appropriated by well are subterranean waters, possibly percolating waters, the proposed use of the water is to irrigate with a sprinkler system. The well will be located approximately 1320 feet from the East boundary of the after described property and just North or inside the South boundary of said property.

The proposed amount of water to be used is approximately 4 second feet. The approximate time it will take to complete said drilling and applying to a beneficial use will be $2\frac{1}{2}$ years.

The water will be used on approximately 300 acres described as follows:

South $\frac{1}{2}$ of South West $\frac{1}{4}$ of Section 8.

South $\frac{1}{2}$ of South East $\frac{1}{4}$ of Section 8.

Leased Land North $\frac{1}{2}$ of North West $\frac{1}{4}$ of Section 17

North $\frac{1}{2}$ of North East $\frac{1}{4}$ of Section 17

All in Township 9 South Range 41 East of Boise Meridian.

The water to be used on the easterly portion thereof about 300 acres.

Please send the permit directly to Robert W. Hubbard, Grace, Idaho

Thank you.
