Dear Mr. Michaelson:

Enclosed herewith is a copy of the Water License issued on the above referenced permit. Also enclosed is receipt No. 14541 for \$4.00 covering the licensing fee.

Although this license is not in your name, you control that portion of the license that covers your land as the water right becomes appurtenant to the land.

A water right license is evidence of the existence of a water right and can only be lost by abandonment or by forfeiture through a 5-year period of non-use. Therefore, it is not required that a license be renewed and no additional fees will be required. We are returning your self-addressed stamped envelope.

Sincerely,

Dear Mr. Michaelson:

It appearing to the Department of Water Administration that the terms and conditions of Permit No. 18965/11-2097 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee in the amount of \$4.00

_____, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before June 24, 1974, why said permit should not be cancelled.

Permit No. 18965/11-2097 claims the use of 1.26 cubic feet per second of water from Peters Pond,

the point of diversion was to be located within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 2,
Twp. 15 S, Rge. 43 E, B.M. and the permit was approved April 30, 1940.

MEMO

Re: Permit No. 18965/11-2097 - George Michaelson

In reviewing the proposed decree to be entered in the matter of Saint Charles Creek, with Assistant Attorney General, Philip Barber, and Deputy Director, C. Stephen Allred, it was noted that this permit was entered and recommended for a priority and water right as the date of first receipt by this Department. It should be noted that the licensing fees have not yet been paid and the permit is subject to cancellation and also the proof of beneficial use was late and therefore subject to a reduction of priority, as provided by Idaho Statute.

Dear Mr. Michaelson:

A short time ago we received the report of our Field Engineer on examination for beneficial use under the above numbered permit.

This report shows that the works are capable of conducting to the place of intended use 1.26 second feet of water from Peters' Pond for the irrigation of 65 acres in the $\frac{1}{2}$ $\frac{1}{2}$ Section 2, Township 15 South, Range 43 East, B. M.

Therefore, upon receipt of the statutory fee of \$4.00 a license will be issued.

RE: Permit #18965

This will acknowledge receipt of the Deposition of the holder, Depositions of two witnesses, and the Affidavit of Proof of Publication from the Paris Post, Paris, Idaho, all in connection with the Beneficial Use Proof under the above Numbered Permit.

Before Final action can be taken in this matter, the law requires that a field examination be made by an Engineer from this Department. We are unable to say just when this examination will be made, since this Department has but one Field Engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the Engineer's Report is filed, you will be notified of the amount of Fees inconnection with your Beneficial Use Proof, and upon receipt of said Fees, a License will be issued to you.

The name is private ditch owned by Claimant, and is capable of conveying the full 1.26 second feet of water to place of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, in W $\frac{1}{2}$ of NE $\frac{1}{4}$ Sec. 2, Twp. 15 S.R. 43 E.B.M., approximately 63 acres under irrigation and same is cultivated ground. The improvements consist of the pump and ditches and levy described above. The ditch is about 1 $\frac{1}{2}$ miles in length, 3 feet wide at bottom, 4 ft. at water line, 2 ft. deep, diameter of pipe is 8 inches, and the lift is 18 or 19 feet from surface of pond to levy,

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. irrigation only.

18965

C. H. for report
R. M. A.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.26 second feet of water.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. It has been used each season for irrigation, and the full amount of 1.26 second feet has been used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None. Other than the water described herein.

(Sign) George Michaelson.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Paris, County of Bear Lake, State of Idaho, on this 10th day of July, A. Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Glenn W. Michaelson, age 35 years, farmer, St Charles, Idaho

Ques. 2. Are you acquainted with George Michaelson, the holder of Permit No. 18965? How long have you known him and where does he reside?

Ans. I have known him all of my life. He is my father, and he resides at St Charles, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18965, and are you familiar with its provisions and conditions?

Ans. Yes sir.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is Peters Pond, place of diversion is about 25 rods NW from Center of NE $\frac{1}{4}$ of Sec. 2, Twp. 15 S. R. 43 E.B.M., the works consist of a system of irrigation ditches, a levy and a centrifugal pump which raises water from the pond and dumps it into the levy and ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.26 second feet of water, or all that the ditches will hold and that is the amount I have seen used there.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. It is for irrigation only, and waters approximately 63 acres in the W $\frac{1}{2}$ of NE $\frac{1}{4}$ of Sec. 2, Tp. 15 S. R. 43 E.B.M., and the land so irrigated is all cultivated land.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. It is all for irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. It was originally sage-brush land and has been cultivated and put under cultivation and irrigation and it now produces alfalfa and other crops.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I am only interested in it, through him being my father, and I have worked there with him, and know all of the details of the system and its workings.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Every year since the work was begun and the full amount of water asked for has been used and diverted to the land under cultivating and irrigation.

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Dow Williamson, age 40 years, Barber, Paris, Idaho.

Ques. 2. Are you acquainted with George Michaelson, the holder of Permit No. 18965? How long have you known him and where does he reside?

Ans. Yes sir, I have known him practically all of life, and he resides at St Charles, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18965, and are you familiar with its provisions and conditions?

Ans. Yes sir.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The Source of supply is Peters Pond, and the point of diversion is about 25 rods NW from the Center of NE $\frac{1}{4}$ of Sec. 2, in Twp. 15 S. R. 43 EBM. The works consist of ditches, a levy, and a pump which raises the water about 18 feet from the Pond and into the Levy and ditches which convey it to the land under cultivation.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 1.26 second feet, and this is the amount the works are supposed to supply, and that I have seen used there.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. It is irrigation water only, and about 63 acres of the eighty are under cultivation and irrigation, not meadow. The nature of the improvements are as described above, ditches, levy and pump etc.,

18965

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Used for irrigation only.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. About 63 acres reclaimed, and it requires the full 1.26 second feet to successfully irrigate it, for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the workd or the land or the water.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water being diverted to the land each year since he first began the works and in my estimation it requires all of the water he is applying for, to successfully irrigate it.

Re: Permit No. 18965

To George Michaelson
St. Charles, Idaho

It appearing to the Commissioner of Reclamation that the terms and conditions of Permit No. 18965 to appropriate the Public Waters of the State of Idaho, have not been complied with as to failure to make completion of works proof on April 30, 1942.

you are hereby notified in compliance with Sec. 41-811, Idaho Code Annotated that said Permit No. 18965 is hereby held for cancellation.

You are hereby required to show cause before the Commissioner of Reclamation on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 18965 claims the use of 1.26 cubic feet per second of the waters of Peters Pond, with point of diversion located SE 1/4 NE 1/4, Sec. 2, Twp. 15 S., Rge. 43 E., Bear Lake Co., and was approved April 30, 1940

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, this

25 day of May, 1942

Dear Mr. Michaelson:

We are enclosing Completion of Works depositions to be signed by yourself and two witnesses before a Notary Public. These are to be signed as soon as possible and returned to this Department.

We are also enclosing Notice of Publication forms to be filled out and returned to this office. Better allow five weeks before date set for making proof—one week in the mails and 4 weeks for publication prior to date set for proof. We can use the authority for publication in the Paris Post, that we have in our files. We will also need an affidavit that the works were completed prior to April 30, 1942.

Mr. Charles Michaelson
c/o W. Smith Hoge
Paris, Idaho

Dear Mr. Hoge:

We received your notice for publication in the Paris Post for proof to be made on the first of June on the 22nd day of April. Under date of April 27th we wrote Mr. Michaelson that it would be impossible to publish once a week for four consecutive weeks and make proof on the 30th of April as provided in the Permit. We enclosed forms to be signed extending the time for making proof to June 1, 1942 and asked that they be signed and returned to this office before April 30, the day set for proof. We have had no response from Mr. Michaelson. Now it is too late to make proof or to obtain an extension, because it is past the date set for proof.

There is one loophole provided by the statutes, we will send Mr. Michaelson a forty day cancellation notice by registered mail. He will be given an opportunity to make his completion of works proof with two witnesses and a signed affidavit that the works were completed before April 30th and have the right to publish for beneficial use proof, within that forty day period. Otherwise, there is nothing else to do except to file an application for a new permit and pay the customary fee. What is your desire?

Very truly yours,
E. V. BERG

Dear Mr. Michaelson:

The Statutes provide that completion of works proof and beneficial use proof must be made on the date set for proof and if proof cannot be made on or before that date that an extension of time must be signed on or before that date. We are enclosing a completion of works form to be filled out and signed before a Notary Public on or before the 30th of this month, also an application for Extension of Time on your beneficial use proof. It is impossible to advertise for four consecutive weeks and make proof on the 30th of April, the date set for proof. If you still wish to make proof on June 1st, set that date on the application. The application must be signed by a Notary Public on or before April 30, 1942 and returned to this office.

Dear Sir:

Under the terms of your permit No. 18965 you are required to complete your diversion works and make proof of Beneficial Use on or before Apr. 30, 1942.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of Completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

I also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is Apr. 30, 1942, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,

E. V. BERG.
Commissioner of Reclamation.
