Dear Mr. Robbins:

In a final staff review, an error was noted in the legal description of the submitted claim. The error was in the place of use and the map. Both listed the township as T13S when in fact it should read T15S.

To correct the error, enclosed is a typed amended claim to a water right that you need to sign in front of a notary and return to this office as soon as possible. There are no fees necessary to amend the claim.

Dear Mr. Robbins:

Enclosed is the claim to a water right and check #31-5 that were received by this office.

The claim is being returned because the place of use, item 6a (NE $\frac{1}{4}$ SW $\frac{1}{4}$), ~~does~~ not agree with the map (NW $\frac{1}{4}$ SW $\frac{1}{4}$). From the information on the map, the 10 acres that are being irrigated are located within the NW $\frac{1}{4}$ SW $\frac{1}{4}$. If this is true, then the 10 acres should be noted in the box just to the right of where it is indicated on the form in item 6a.

Upon receipt of the corrected claim and \$30.00 filing fee, processing will begin.

Sincerely,

Dear Mr. Robbins:

Enclosed is the claim to a water right and check #31-5 for \$30.00 that were received by this office and a copy of the claim with corrections and additions noted in red.

In the description of the source, if the spring is tributary only to St. Charles Creek which is tributary to Bear Lake, the reference to Bear Lake in item #2 need not be made; however, if the stream is tributary to both, then the addition of "spring" in the description of source is all that is needed.

In item #3, the units need to be added and the suggested period for irrigation for that area is April 15 to October 15, both dates inclusive.

A description of the place should be included in item 6A, and the number of homes on the system in item 6B as noted in red.

Due to the nature of the claim, the claim must be returned to the claimant for any corrections or additions. Upon receipt of the corrected, notarized claim to a water right and the \$30.00 filing fee, processing will begin.

Please feel free to contact this office for any additional assistance that may be needed.

Dear Mr. Robbins:

Enclosed you will find your claim to a water right and your check #31-5 for \$30.00.

In reviewing your claim, I found several sources of water included on one claim. The spring, I assume is the source of water for a household, (domestic). This spring may create the pond you mention.

You indicate sub-irrigation ~~from the same source~~ (pond) but in Idaho we only recognize a direct application of water to establish a beneficial use right. You must sprinkle or flood irrigate to have your ground considered irrigated.

You must file separate claims if you are using separate sources in unwe related systems. Therefore, you should file on your domestic water and possible your irrigation on a separate claim form, from your stockwater.

Lastly, your priority date on Line 1 lists only a year. To the best of your knowledge you must provide a month and day also.

If you have any questions, please call us.
