SUBJECT T2606

The main issue of controversy on this one regards proof of ownership of lands from which the water is to be removed. See my memo in the file regarding this matter.

We are currently making an effort to remove the backlogged transfer apps. ~~the~~ You will be seeing some of these old ~~at~~ ones. This is one of a total of 7 rec'd in the state office prior to 2/1/81.

SUBJECT 11-0314

It is true that water is being removed from Section 7. However, the topographic map shows that Sec 7 is very hilly and ^{much of} the land near the stream is forested. Looking at the boundaries of the company on the map, it is unlikely that any of Sec 7. is in fact irrigated. This factor + the factor that the transfer is filed by the original water right holder lead me to (over)
