RE: TRANSFER NO. 3806/RT. NO. 11-0154

=====

This transfer changes the place of use and point of diversion of the above decreed right. The land to which the right is appurtenant has an overlapping groundwater right. The groundwater right will become a primary right after the change is made, but concerns about expansion is not necessary since the rights are not located in any type of administrative area. The owner of the land to which both rights are appurtenant (before change) has consented to the transfer. Approval of the transfer is recommended with the conditions below.

- 1) <<R04>> Use of water under this water right is subject to control by the watermaster of State Water District No. 11-F, Thomas Fork.

RE: TRANSFER NO. 3806/RT. NO. 11-0154

=====

Keith or Skip;

I am a bit uncomfortable recommending final approval of this transfer. My concern involves ownership of the right and potential expansion. I don't feel that the disclaimer attached to the transfer is complete.

The transfer applicant Rigby does not own the land from which the right is being moved. Our database shows that the recorded place of use includes 160 acres. Tax records show that the Land Bank and Lon Tueller only own 149 of the 160 acres. County assessor records show that the remaining 11 acres are owned by Daryl Sparks. An overlapping groundwater license was issued for 144 acres.

Question:

- Is Sparks using any portion of the surface water right and/or should he also provide consent to the transfer?
- Should the new place of use be limited to 144 acres? (11-7102C)

Also:

I note that the transfer states that the right has historically been used on the ground listed as the 'new place of use'. Recent data collected by the Department for an upcoming Bear River Compact report indicates that the new place of use is dry or non-irrigated ground. Even if the applicant has irrigated 155 acres at the new place of use, I am not certain we can approve the transfer until we have consent from Sparks or some assurance that the portion of the right appurtenant to Sparks' property is not being used.

Please provide me with further insight or help on the above questions. Discuss with me if you wish.

Dear Mr. Rigby:

Enclosed please find a copy of a protest filed against the above referenced application. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed use under this transfer conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the three items should an additional hearing be necessary. You will be notified at a later date as to the time and place set for conference and/or hearing.
