MJ Davis Memorial - March 21, 2006 - 1:00 p.m.
15-7273, 15-7274, 15-7275

Randy
Budgee:

Farm Service suggest to put some buffer for wildlife to enhance the habitat.

Davis has share in Samaria Water. Had 5 shares not using -

Davis wanting to do drip system.

File new apps - wrote ~~to~~ Samaria to find out by laws -

Concern on Place of Use - 3 statutory claims by Samaria - did not file on them.

Evidence of use - Ditch. Thomas Davis Creek - had to been constructed once - CRP program (1983)

Title Research - land had been passed along with water rights - Deed - W/2 Sec 27 - 95 acres in CRP

10/9/1928 - went from Martin to Campbell Capital Stock in Samaria Water District.

Proper place of use is on Davis - Exception - Resolution -

Issue #2 - Davis use excess water - Needed to file application - Objective - Not to interfere w/ other water rights except Samaria - High spring runs off he could use it. When canal company need - he would shut off. In the last 7 years - no water makes it to town -

Thomas Davis .02 - Stockwater - Recreation aesthetic

Rose Bud - .25 cfs

Dry Pine .75 cfs - Spring - excess water -

Subject to all prior water rights

15/1032 Stockwater Pond - The applications do not pertain to the ~~ponds~~.

Pipeline goes to Pond? He left 5 shares to use if needed. - From Thomas Creek to the pond - dump back to Creek -

Pipeline installed 2004 - used last time cattle were there 2003.

Kent Foster - As long as Samaria Irrigation gets their fill. if there is excess. Davis would use.

Budge - We would not use if none was available.

Foster - Assuming there is water - (late April/May) what will happen to Davis property -

Budge - Would like to work something out with Samaria Irrigation.
We could amend to ~~see~~ the acreage to small areas.

Hearing date: Submit Calendar -

Target Date - ~~June~~ - May ~~24th~~

Wed

9:00
A.M.

Gary Spackman →

Pocatello Airport.
