Department of Water Resources  
Attention: Gary Spackman  
PO Box 83720  
Boise, ID 83720-0098

Dear Mr. Spackman,

I would like to file a petition to reconsider the final amendment of Permit Approval of Permit No. 95-9036.

The wording of the final document does not match the wording of the draft that you sent out dated December 2, 2005. Surely myself and other protestants withdrew our protests based on the wording of the draft. I believe the final version should be consistent with that.

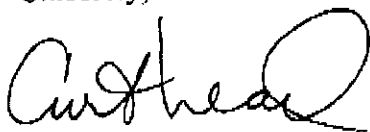

Of particular importance, I believe, is the wording in item #4. The draft is correct stating that the Hauser Lake Heights Homeowner Association will approve or disapprove any additional users of the system in the future. The final version calls this group the Hauser Lake Heights Water Association and that is not the correct name. This might cause some confusion in the near future considering the current ownership of the water system is in dispute.

Also, item #6 changes the point of diversion sites, and I believe it needs to be the same as stated in the draft.

I am faxing this petition to you due to the short response time caused by the difference between the mailing vs. service dates of the final draft. I will follow the fax with this copy in the mail. I am available to answer questions at my office phone number (509)235-6801.

Thank you for your consideration of this petition.

Sincerely,

Curt Nead
