APPLICANT

10. Remarks:

This application will provide water for the continued irrigation of trees in a low area south of our home. The trees have historically been irrigated with waste water from the adjacent property to the west via wild flooding. That property is being subdivided, so will no longer be irrigated. Therefore, we want to develop an irrigation system to keep the trees alive. The diversion works will be shared with my neighbor to the north (Tom Wagner), who will apply for his own permit.

11. Map of proposed point of diversion and place of use attached? ☐

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
