Department of Water Resources  
**Permit to Appropriate Water**  
NO. 85-15505

Priority: August 19, 2004

Maximum Diversion Volume: 10.0 AF

This is to certify, that JOSEPH SCHNELL  
RR 2 BOX 311A  
GRANGEVILLE ID 83530

has applied for a permit to appropriate water from:

**Source:** UNNAMED STREAM      **Tributary:** MILL CREEK

and a permit is APPROVED for development of water as follows:

| <u>BENEFICIAL USE</u> | <u>PERIOD OF USE</u> | <u>ANNUAL VOLUME</u> |
|-----------------------|----------------------|----------------------|
| WILDLIFE STORAGE      | 01/01 to 12/31       | 10.0 AF              |

**LOCATION OF POINTS OF DIVERSION:**

UNNAMED STREAM NW¼ NE¼ Sec. 27, Twp 30N, Rge 03E, B.M. IDAHO County  
UNNAMED STREAM NE¼ NW¼ Sec. 27, Twp 30N, Rge 03E, B.M. IDAHO County

**PLACE OF USE:** WILDLIFE STORAGE

| Twp Rge Sec | NE |    |    |    | NW |    |    |    | SW |    |    |    | SE |    |    |    |        |
|-------------|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|--------|

| 30N 03E 27  |    | X  |    |    | X  |    |    |    |    |    |    |    |    |    |    |    |        |

**CONDITIONS OF APPROVAL**

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2007**.
2. Subject to all prior water rights.
3. Water shall not be diverted under this right when flows in the Clearwater River are below established minimum flow amounts.
4. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 17<sup>th</sup> day of April, 2006.

RE: Permit No. 85-15505

**Permit Approval Notice**

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being the most prominent.

Shelley W. Keen

Water Rights Supervisor

## **CERTIFICATE OF SERVICE**

I hereby certify that on April 18, 2006 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

**RE: WATER RIGHT NO.**

**85-15505**

**JOSEPH SCHNELL  
RR 2 BOX 311A  
GRANGEVILLE ID 83530**

**Kari Lynn Townsend  
Secretary**

**EXPLANATORY INFORMATION  
TO ACCOMPANY A  
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

**PETITION FOR RECONSIDERATION**

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

**EXCEPTIONS AND BRIEFS**

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

**REQUEST FOR HEARING**

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

**ORAL ARGUMENT**

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

## CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

## FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

## APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Recommend approval as suggested by IDWR Northern.

MEMO TO: FILE

FROM: KEITH FRANKLIN

DATE: MARCH 17, 2006

RECEIVED

APR 17 2006

DEPARTMENT OF  
WATER RESOURCES

Mr. Schnell originally made application for a wildlife storage pond, on an unnamed stream and a diversion from Mill Creek to supplement the pond in years of drought. The application was advertised without protest however; the Fish and Game Department raised a concern about diverting water from Mill Creek, since it was a stream with a minimum flow designation.

Due to the uncertainty on when a permit might be issued, that is associated with a minimum flow stream, Mr. Schnell decided to withdraw his request to supplement the wildlife storage pond from Mill Creek, by letter to the department, received on March 13, 2006 and pursue a water right from Mill Creek by a separate application sometime in the future.

The original data entry, for the application, included the diversion from Mill Creek, which has since been edited out and only the wildlife storage component remains for appropriation consideration.

Dear Mr. Haynes:

REFERENCE: #85-15505 JOSEPH SCHNELL WATER RIGHT APPLICATION

Joseph Schnell has requested a right to construct a dam to impound 10 acre feet of water from an unnamed tributary to Mill Creek in Idaho County, and for a supplementary withdrawal from Mill Creek, to be pumped to the pond during dry weather. The pond is intended to create wildlife habitat as part of a USDA Natural Resource Conservation Service environmental quality improvement project (EQIP).

Typically, IDFG recommends that ponds be constructed off channel to preserve natural fish, wildlife and hydrologic values of intermittent and ephemeral streams. In this instance, NRCS informs us that the pond would not be constructed in a live channel; rather, the dam would capture primarily surface runoff to create the pond. NRCS also informs us that the pond will help resolve some erosion problems on the subject property. Therefore, we have no objection to constructing the pond where proposed.

Although we do not object to construction of the pond in the unnamed tributary as proposed, we recommend that you do not permit the supplementary withdrawal from Mill Creek.

NRCS indicated to us that a supplementary withdrawal was not part of the EQIP project design. We assume that NRCS designed the dam to impound adequate water to meet the EQIP habitat goals without supplemental water from Mill Creek. In addition, supplementary dry-period withdrawal from Mill Creek would concentrate impacts from withdrawal on the creek during the most critical flow periods. Therefore, we believe no water should be allocated from Mill Creek for the proposed pond as requested. If additional water is needed to meet EQIP project goals, we suggest that the applicant consider early season withdrawal and storage from Mill Creek or other alternatives.

Thank you for the opportunity to comment.

Sincerely,

*Cal Groen*

Re: Application to Appropriate Water no. 85-15505

Dear Applicant:

The records of the Idaho Department of Water Resources (the Department) show that you filed an application to appropriate water no. 85-15505 with the Department proposing diversion of water from a water source in the Salmon River Basin or the Clearwater River Basin. In April 1993, a moratorium order signed by the Director of the Department prohibited processing and approval of most new permits to appropriate water proposing to divert and use water from surface water sources in the Salmon River and Clearwater River Basins. In October 1999, a second moratorium order signed by the Director of the Department prohibited processing and approval of most new permits to appropriate water proposing to divert and use water from surface water and ground water sources within and upstream of designated wilderness areas in the Salmon River and Clearwater River Basins. Recently, the Director of the Department issued an order rescinding both moratoriums.

**Enclosed is the order titled *Order Rescinding Salmon-Clearwater Basin Moratorium and Wilderness Moratorium*.** The order directs Department staff to begin processing applications to appropriate water that were held during the moratoriums. Applications will be processed in the approximate order of the Department's receipt of the applications. A reasonable number of applications will be processed each month considering other duties assigned to Department staff. A document attached to the order titled "Statement of Available Procedures and Applicable Time Limits" explains possible actions you might take should you disagree with the order.

Because of the passage of time since you filed your application for permit to appropriate water, ownership of land, desire to use water, or other circumstances may have changed. **This letter requests that you inform the Department in writing, at the address in the letterhead, of your continuing interest in applying for a permit to appropriate water. This letter is a request for additional information under Idaho Code § 42-204. If the requested written statement of continuing interest is not received by the Department within thirty (30) days of the date of this letter, the Department will assume you are no longer interested in applying for a permit to appropriate water, and will void your application pursuant to**

SCANNED  
DEC 12 2005

November 21, 2005

Page 2

**Idaho Code § 42-204. If you wish to voluntarily withdraw your application, please complete the enclosed withdrawal form and return it to this office.**

If you have questions, please call the Department at (208)287-4952.

Sincerely,

A handwritten signature in black ink that reads "Gary Spackman". The signature is written in a cursive style with a large, sweeping "G" and a long, horizontal flourish at the end.

Gary Spackman, Chief  
Water Allocations Bureau

**FINDINGS OF FACT**

**Salmon - Clearwater Basin Moratorium**

1. On May 15, 1992, the Director of the Department of Water Resources ("Director" or "Department") issued a *Moratorium Order* enjoining the processing of most applications to appropriate surface water sources within the Salmon and Clearwater River Basins. On April 30, 1993, the Director issued an *Amended Moratorium Order* ("Salmon - Clearwater Order"), again enjoining the processing of most applications to appropriate water.

2. The Salmon - Clearwater Order stated:

This moratorium shall be in effect on and after the date it is entered until withdrawn or modified by further order of the Director. A future decision to continue or rescind the moratorium will consider all efforts being made within the region toward the recovery of the salmon.

3. Since the issuance of the Salmon - Clearwater Order, significant efforts have been undertaken in the Salmon River and Clearwater River Basins for the recovery of salmon. These activities include:

- Protection of instream flows in streams and rivers to benefit anadromous fish habitat;
- A process for re-establishment of flows in dewatered anadromous fish streams by delivery of rented or acquired water rights to the dewatered reaches;
- Screening and control of irrigation diversions;
- Consolidation of irrigation diversions;

SCANNED

DEC 14 2008

- Riparian habitat improvement projects; and
- Administration of water rights following creation of the Upper Salmon River Water District (creation anticipated at the end of 2005).

### **Wilderness Moratorium**

4. On October 26, 1999, the Director issued a *Moratorium Order* ("Wilderness Order") enjoining further processing and development of pending applications and permits for the diversion and use of surface and ground water in and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church River of No Return Wilderness Area.

5. The Director issued the Wilderness Order in response to an Idaho Supreme Court decision titled *United States v. City of Challis*, 133 Idaho 525, 988 P.2d 1199 (1999). The *City of Challis* decision affirmed a 1997 Snake River Basin Adjudication (SRBA) District Court decision that the United States is entitled to reserved water rights to all unappropriated water within the Selway-Bitterroot, the Gospel-Hump, and the Frank Church River of No Return Wilderness areas. The Director determined the recognition of the federal reserved water rights to include all unappropriated water within and upstream of the wilderness areas.

6. The Wilderness Order affected all water permits and applications for permit for which proof of beneficial use had not been filed with the Department in the Salmon River Basin upstream from the location where the Salmon River leaves the Gospel-Hump Wilderness Area in Section 3, Township 24 North, Range 4 East, Boise Meridian, and in the Clearwater River Basin upstream from the location where the Selway River leaves the Selway-Bitterroot Wilderness in Section 7, Township 31 North, Range 10 East, Boise Meridian.

7. The Wilderness Order required all water permit holders to cease development authorized by the permits. Some permit holders submitted proof of beneficial use for the beneficial use completed as of the date of the Wilderness Order. Other permit holders ceased development, and the requirement for filing proof of beneficial use was stayed until the Wilderness Order was amended or lifted to allow additional development.

8. The Idaho Supreme Court granted a petition for rehearing of the *City of Challis* decision, and, on October 27, 2000, the Idaho Supreme Court issued another decision titled *Potlatch Corp. v. United States of America*, 134 Idaho 916, 12 P.3d 1260 (2000). The Court reversed its previous decision in *United States v. City of Challis* and held the Wilderness Act and associated wilderness designations did not create federal reserved water rights for the Frank Church River of No Return, the Selway-Bitterroot, and the Gospel-Hump Wilderness Areas.

## Wild and Scenic Rivers

9. In the case of *Potlatch Corp. and Hecla Mining v. United States*, 134 Idaho 912, 12 P.3d 1256 (2000), the Idaho Supreme Court determined that federal designation of Wild and Scenic Rivers in Idaho reserved water rights for the federal government to satisfy the intent of the designation. The Idaho Supreme Court remanded the case to the SRBA District Court for quantification of the reserved water rights for the Wild and Scenic Rivers.

10. On November 16, 2004, the SRBA District Court entered an Amended Order Approving Stipulation and Entry of Partial Decrees in SRBA Case No. 39576 (Consolidated Subcase No. 75-13316 Wild & Scenic Act Claims). The amended order and the associated partial decrees define federal reserved water rights nos. 75-13316, 77-11941, 77-13844, 78-11961, 81-10472, 81-10513, and 81-10625 in Wild and Scenic Rivers in the Salmon and Clearwater River basins. A stipulated agreement (hereafter referred to as the "Wild & Scenic Agreement") between the United States and parties to the original subcases prior to consolidation forms the framework for the partial decrees issued by the SRBA District Court. The Wild & Scenic Agreement and the partial decrees defining the federal reserved water rights set forth subordination provisions under which the federal reserved water rights are subordinate to other existing and future water rights, describe limitations on appropriation and beneficial use under existing and future water rights to which the federal reserved water rights are subordinate, and provide specific requirements for the administration of water rights within the Salmon and Clearwater River basins.

## CONCLUSIONS OF LAW

1. In issuing the Salmon - Clearwater Order and the Wilderness Order, the Director relied on Idaho Code § 42-1805(7). The subsection grants the Director the authority:

After notice, to suspend the issuance or further action on permits or applications as necessary to protect existing vested water rights or to ensure compliance with the provisions of chapter 2, title 42, Idaho Code, or to prevent violation of the minimum flow provisions of the state water plan.

2. The Salmon - Clearwater Order was issued after the Director found and concluded that further appropriations of surface water at the time would not be in the local public interest and would not be consistent with conservation of the waters of the State of Idaho.

3. Enhancements to streamflows, other improvements to anadromous fish habitat, the execution of the Wild & Scenic Rivers Agreement, and the determination of related federal reserved water rights, have addressed the underlying basis upon which the *Amended Moratorium Order* was issued.

4. The prohibition of new water right appropriations by the Director's Salmon – Clearwater Order dated April 30, 1993, can be rescinded and processing of applications to appropriate surface water in the Salmon River and Clearwater River Basins can be allowed.

5. The Wilderness Order was issued following the initial Idaho Supreme Court decision of *United States v. City of Challis*, 133 Idaho 525, 988 P.2d 1199 (1999). Based on the Court's decision, the Director determined there was no additional water available for appropriation. Upon reconsideration, the subsequent Idaho Supreme Court decision, *Potlatch Corp. v. United States of America*, 134 Idaho 916, 12 P.3d 1260 (2000), determined that the wilderness designations did not reserve water rights for the wilderness. As a result of the latest Supreme Court decision in *Potlatch*, the Wild and Scenic Rivers Agreement, and related federal reserved water rights, there is additional water available for appropriation within the limitations described by the Wild & Scenic Agreement and the partial decrees for related federal reserved water rights.

6. The prohibition of new water right appropriations and development authorized by permits to appropriate water by the Director's Wilderness Order dated October 26, 1999, can be rescinded and processing of applications to appropriate water and continued development authorized under existing permits to appropriate water can be allowed.

7. Permit holders who were prohibited from completing application of water for the beneficial use authorized under existing permits are entitled to additional time to complete application of water for beneficial use. For each permit, the additional time granted for completing development should be equal to the number of days from the date the Wilderness Order was issued to the date proof of beneficial use was originally due under the permit. The Department should issue an order subsequent to this order establishing the additional time to complete development delayed by the Wilderness Order and specifying the revised date for filing proof of beneficial use for each permit.

## **ORDER**

IT IS HEREBY ORDERED that the *Amended Moratorium Order*, issued on April 30, 1993, prohibiting appropriations of surface water in the Salmon and Clearwater River Basins, is **RESCINDED**.

IT IS FURTHER ORDERED that the *Moratorium Order*, issued on October 26, 1999, prohibiting appropriations of surface and ground water and development of permits for the use of surface water or ground water in and tributary to the Selway-Bitterroot Wilderness Area, the Gospel-Hump Wilderness Area, and the Frank Church River of No Return Wilderness Areas, is **RESCINDED**.

IT IS FURTHER ORDERED that permit holders who were prohibited from completing beneficial use of water authorized under existing permits by the *Moratorium Order* issued on October 26, 1999, are granted additional time for completing the beneficial use authorized. For

each permit, the additional time granted for completing development shall be equal to the number of days from the date the Wilderness Order was issued to the date proof of beneficial use was originally due for the permit. The Department shall issue an order subsequent to this order allowing additional time for completion of beneficial use delayed by the Wilderness Order and specifying a date for filing proof of beneficial use for each permit.

IT IS FURTHER ORDERED that appropriations of ground water and surface water within the Salmon River Basin may resume subject to the requirements of the Wild and Scenic Agreement and the federal reserved water rights decreed in accordance with that stipulated agreement.

IT IS FURTHER ORDERED that Department staff shall process new applications to appropriate water generally in the chronological order of the receipt of the applications. Department staff shall also process a reasonable number of applications per month considering all other duties assigned to Department staff.

Dated this 9<sup>th</sup> day of November, 2005.

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', is written over a horizontal line.

**EXPLANATORY INFORMATION  
TO ACCOMPANY A  
FINAL ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 740.02)

The accompanying order is a "Final Order" issued by the department pursuant to section 67-5246, Idaho Code.

**PETITION FOR RECONSIDERATION**

Any party may file a petition for reconsideration of a final order within fourteen (14) days of the service date of this order as shown on the certificate of service. **Note: The petition must be received by the Department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5246(4), Idaho Code.

**REQUEST FOR HEARING**

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person who is aggrieved by the action of the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the action. The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. See section 42-1701A(3), Idaho Code. **Note: The request must be received by the Department within this fifteen (15) day period.**

**APPEAL OF FINAL ORDER TO DISTRICT COURT**

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of: a) the service date of the final order, b) an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.

## CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 21<sup>st</sup> day of November, 2005, a true and correct copy of the above and foregoing documents described below were served on the following by placing a copy of the same in the United States mail, postage prepaid and properly addressed to the following:

DEAR MR. ROBERT HAYNES:

IN RESPONSE TO THE ENCLOSED LETTER:  
NO, SUPPLEMENT WATER FROM MILL CREEK IS  
NOT IN THE EQUIP DESIGN. THE EQUIP DESIGN WAS  
JUST THE DAM. I WAS WANTING AN ALTERNATIVE  
WAY TO ADD WATER IF NEEDED. THE PROPOSED  
REQUEST THAT WATER NOT BE TAKEN FROM MILL  
CREEK DURING DRY-PERIODS IS FINE, AS I  
KNOW THE IMPORTANCE OF WATER FLOW FOR  
OTHER LIFE. THE SOIL IN THE POND AREA IS  
VERY GOOD CLAY AND HOLDS WATER VERY  
WELL, SO ANY SUPPLEMENT I MAY NEED  
CAN BE DONE FROM MILL CREEK DURING  
WETTER PERIODS.

I HOPE THIS WILL RESOLVE THE CONCERN  
OF THE FISH & GAME, AND PROCESSING OF  
APPLICATION CAN CONTINUE.

THANK YOU

Joseph Schnell

PERMIT # 85-15505

Re: Application for Permit 85-15505

Dear Mr. Schnell:

Enclosed is a copy of the letter from Fish and Game in response to our request for their comment in regards to your application for permit referenced above. As you can see, they have concerns regarding the diversion you propose out of Mill Creek.

Your application for permit will be held without action until we receive written documentation from you or Fish and Game showing that an agreement has been made between the parties and listing the specifics of that agreement. Processing of your application will continue after that has occurred.

If you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read 'Al Beardslee'.

Dear Mr. Haynes:

REFERENCE: #85-15505 JOSEPH SCHNELL WATER RIGHT APPLICATION

Joseph Schnell has requested a right to construct a dam to impound 10 acre feet of water from an unnamed tributary to Mill Creek in Idaho County, and for a supplementary withdrawal from Mill Creek, to be pumped to the pond during dry weather. The pond is intended to create wildlife habitat as part of a USDA Natural Resource Conservation Service environmental quality improvement project (EQIP).

Typically, IDFG recommends that ponds be constructed off channel to preserve natural fish, wildlife and hydrologic values of intermittent and ephemeral streams. In this instance, NRCS informs us that the pond would not be constructed in a live channel; rather, the dam would capture primarily surface runoff to create the pond. NRCS also informs us that the pond will help resolve some erosion problems on the subject property. Therefore, we have no objection to constructing the pond where proposed.

Although we do not object to construction of the pond in the unnamed tributary as proposed, we recommend that you do not permit the supplementary withdrawal from Mill Creek.

NRCS indicated to us that a supplementary withdrawal was not part of the EQIP project design. We assume that NRCS designed the dam to impound adequate water to meet the EQIP habitat goals without supplemental water from Mill Creek. In addition, supplementary dry-period withdrawal from Mill Creek would concentrate impacts from withdrawal on the creek during the most critical flow periods. Therefore, we believe no water should be allocated from Mill Creek for the proposed pond as requested. If additional water is needed to meet EQIP project goals, we suggest that the applicant consider early season withdrawal and storage from Mill Creek or other alternatives.

Thank you for the opportunity to comment.

Sincerely,

Cal Groen  
Clearwater Regional Supervisor

Joseph Schnell has requested a right to construct a dam to impound 10 acre feet of water from an unnamed tributary to Mill Creek in Idaho County, and for a supplementary withdrawal from Mill Creek, to be pumped to the pond during dry weather. The pond is intended to create wildlife habitat as part of a USDA Natural Resource Conservation Service environmental quality improvement project (EQIP).

Typically, IDFG recommends that ponds be constructed off channel to preserve natural fish, wildlife and hydrologic values of intermittent and ephemeral streams. In this instance, NRCS informs us that the pond would not be constructed in a live channel; rather, the dam would capture primarily surface runoff to create the pond. NRCS also informs us that the pond will help resolve some erosion problems on the subject property. Therefore, we have no objection to constructing the pond where proposed.

Although we do not object to construction of the pond in the unnamed tributary as proposed, we recommend that you do not permit the supplementary withdrawal from Mill Creek.

NRCS indicated to us that a supplementary withdrawal was not part of the EQIP project design. We assume that NRCS designed the dam to impound adequate water to meet the EQIP habitat goals without supplemental water from Mill Creek. In addition, supplementary dry-period withdrawal from Mill Creek would concentrate impacts from withdrawal on the creek during the most critical flow periods. Therefore, we believe no water should be allocated from Mill Creek for the proposed pond as requested. If additional water is needed to meet EQIP project goals, we suggest that the applicant consider early season withdrawal and storage from Mill Creek or other alternatives.

Thank you for the opportunity to comment.

Sincerely,

Cal Groen  
Clearwater Regional Supervisor

STATE OF IDAHO  
County of Idaho - ss.

Andrew J. McNab, being first duly sworn, says he is the Publisher of the IDAHO COUNTY FREE PRESS, a weekly news-  
paper published and issued weekly at Grangeville, Idaho County,  
State of Idaho, and is of general circulation in said county and  
state, that the said legal notice, of which the one hereto attached  
is a true copy, was published in said paper for two weeks, being  
published two times, the first publication being on the 19th  
day of January, 2005; and the last publication on the 26th day  
of January, 2005; and that the said legal notice was published in  
the newspaper proper and not a supplement; that said newspa-  
per has been continuously and uninterruptedly published in said  
county during a period of seventy-eight consecutive weeks prior  
to the publication of said legal notice of advertisement.

STATE OF IDAHO )

RE: Application for Permit No. 81-11924 and 85-15505

**Dear Nona:**

Enclosed you will find a legal notice which we wish to have published in your newspaper on the dates indicated, January 19 and 26, 2005, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 02/07/2005. Your cooperation is GREATLY appreciated, as always.

Sincerely

A handwritten signature in cursive script, appearing to read 'Dianne Ball'.

**To:** Legal Notices-ID CO Free Press (E-mail)  
**Subject:** Legal notice for publication on January 19 and 26, 2005

A Very Good Day to you, Nona,

Attached is our cover letter requesting publication of a legal notice on January 19 and 26, 2005. The legal notice is also attached.

If you have ANY questions, please call me at 208-769-1450.

**Please FAX a proof prior to publication so I can make a last minute check to make sure I have everything correct. My FAX number is 208-769-1454.**

I have been off on medical leave for 2+ months and it is amazing how much things have stacked up. The proof is just so I can do a double check while I am playing catch-up.

Thanks and have a happy day,

Dianne

RE: Application for Permit No 85-15505

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Idaho County Free Press on January 19 and 26, 2005. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Allen Beardslee".

Application to Permit No. 85-15505

STATE OF IDAHO :

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application follows for your reference.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

You can comment by e-mail to [Dianne.Ball@idwr.idaho.gov](mailto:Dianne.Ball@idwr.idaho.gov)

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Dianne'.
