

MEMORANDUM

DATE: April 19, 2006
FROM: KARI LYNN TOWNSEND
TO: FILE 63-10273
RE: Letter from SPF Water Engineering

=====

An Assignment of Permit was received today with a cover letter addressed to Steve Lester (Western Region). The letter is from Scott King and requests an expedited handling of the permit file to allow for licensing ASAP.

I talked to Steve Lester and he told me that a partial field exam had been performed by a summer intern but is not ready for completion at this time. Steve agreed to talk with Scott King and explain the probable delay in getting this permit licensed. I faxed a copy of the SPF letter to Steve for his information. Apparently he had not seen the letter when it was first received at the region office.
