Re: Proposed License

The right holder did not submit licensing amendment, after 2 requests, so have revised the proposed license to that area that could be licensed without an amendment. Since we did not receive the licensing amendment we can only allow domestic use for 2 homes, 3rd home was in an area not included under permit (SWNW).

This proposed license also includes condition requiring watermaster control of this well. This condition has been carried over from permit so not a new condition to this water user.
