RE: Application for Permit of Comore Development, Inc.

Dear Ladies and Gentlemen:

We are enclosing with this letter an Application for Permit on behalf of Comore Development, Inc. This is an application for inside use water only or for water that will not be used consumptively. It is exclusively for the inside water for up to 130 households.

As you are probably aware, under the pending water rights and applications for permit for the domestic use water for the Comore subdivisions, there are a total of seven (7) wells and pumps authorized. Six (6) have already been constructed, and are interconnected so that water which reaches any given home in any of the subdivision lands could come from any of the wells. The locations of the wells are shown on the attached map and have each been labeled with a number, which is the number used by Comore Development to identify the wells.

Thank you for your kind attention to this matter.

Yours very truly,

Kent W. Foster
