

MEMORANDUM

Date: April 18, 2003
To: Water Right File 63-31138
From: Sharla
Re: Amendment of Permit

An amendment of permit was filed 4/17/2003 to change the water bearing zone to be appropriated by the new well authorized by a previous amendment approval.

Documentation for the request was provided by Ed Squires of HydroLogic Inc. and can be found in the paper file.

One existing well in the SWNE, S24 is 670+ feet deep; therefore, the remark concerning the water bearing zone for it was changed to 500 - 700 feet. The well in the SENE, S24 will remain in the 100 - 160 feet zone as previously approved and the second well in the SWNE, S24 is the well for which this amendment was filed to change the water bearing zone to 185 - 300 feet rather than 500 - 800 feet as previously approved.
