

MEMORANDUM

DATE: April 18, 2003

TO: Water Right File 63-31138

FROM: Shelley W. Keen

RE: Processing of Application for Amendment

I reviewed the report submitted by Hydro Logic, Inc., in connection with the application to amend the water bearing zone for Permit 63-31138. I concluded that there is little likelihood that a well interference problem will result from the change in water bearing zone. Therefore, I recommend that the change be approved without advertising the application. I also consulted briefly with Gary Spackman about the need to advertise, and he agreed with my conclusion that it is not necessary.
