10. Remarks:

We will be developing a new concrete mixing plant at the location described on this application. We will be developing new water uses on property that we are in the process of purchasing. Our water use will consist of water supply to a small office (bathroom facilities), a small amount of landscaping, and water use associated with mixing concrete and cleaning equipment. We plan on diverting no more than 2500 gallons per day, and 0.04 cfs, from the well for our water use. We will be storing some of our diverted water in a 5000-gallon storage tank that will be used for water uses associated with mixing concrete and cleaning equipment during peak demand periods.

11. Map of proposed point of diversion and place of use attached? ☐

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
