3. jstanton 2/15/2006 Comment/Analysis
Comment: This application proposes to legalize a small water system that was developed last summer on a spring tributary to Willow Creek. This water could conceivably reach Magic Reservoir, so is governed by the 1980 moratorium letter on new consumptive uses of surface water above the Reservoir. The application was discussed at the weekly staff meeting today, and was found to be non-consumptive; barring protests, we should be able to approve the use with proper conditions (domestic for in-house use only). There does not appear to be any reason to do a site visit on such a small system.

4. jstanton 2/15/2006 Legal Notice Remarks
Comment: This application proposes to divert spring water from a small canyon in the Willow Creek drainage via a pipeline 3/4 mile long to a cabin and stock troughs along the Willow Creek Rd. The place of use is located about 12 miles NE of Fairfield.
