Re: permit review

No WD (groundwater)
No moratorium

In Bear River GWMA.

Domestic use is for irrigation <2500 gpd. Although it is a consumptive use, no mitigation is being required because if a water right were not filed, the use could not be prevented under 42-111 and 42-227. The use is considered de minimus in the management plan. See attached correspondence.

No protest.

Overlap with Preston-Whitney Irrigation Co service area.

Recommend approval as suggested by IDWR Eastern.
