Re: GIS Shape

Upon creation of the GIS shape for the place of use I found 3 houses in S part of NESE, S33. Discussed with Lori and we determined that we should add those houses to the place of use for this right. Have also added 0.2 acres to this 40 since there are 3 houses x 0.057 acre/home = 0.17 acre which rounds to 0.2. Have reduced acreage for SESE to 3.6 to make up for this change.
