

RECOMMENDATION OF WATERMASTER

Application No: Transfer 72468
Water Right No: 37-7447A
Applicant Name: Rosa

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

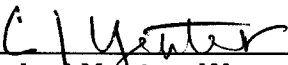

115 – mag meter with data logger
No additional wells to be constructed
Standard ESPA water district conditions

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

TO wells are previously unregulated in WD130. FROM well is A0005556, shared with Elexpuru. From my personal observations, Rosa has irrigated very little in the past five years, except to let one stationary wheel line run to generate runoff which collects in a low corner of his pasture for the cattle to drink. The line has not been moved in three years. As the right was decreed in 2001 there is little which can be done about the apparent forfeiture. As far as the hydrologic analysis, however, Brockway is generously over-estimating the amount which has been diverted by Rosa in the past 5 years, so the actual discharge response should be even greater than indicated.

Dated: March 17, 2006

Water District 130

Cindy J. Yenter, Watermaster
