Re: Water Right Permit No. 95-08830

Dear Mr. Pennestri:

The Water Resources Department is currently reviewing the Beneficial Use Field Report for the, above-mentioned, water right permit and has a question for clarification.

The place of use, as indicated in the water right application, does not coincide with the area of use found in the field report. Enclosed, for you convenience, is a map showing an area outlined in yellow, that the Department believes is the actual place of use and requests you concurrence.

This information is important so as not to delay the further processing of you permit. If you should have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely

Keith E. Franklin
Water Resources Agent

Mr. Pennestri called, 2/14/06 and said the sketch we sent, describes his property to a tee.
