RE: Water Right Permit No. 67-07525

Dear Mr. Grossen:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. This amendment is for the permit that was in your mother's name (Irene A. Grossen) and you told me you now owned this property. The amendment form can be signed and submitted by you since you now own the property. The amendment form is necessary due to the change in the point of diversion. The point of diversion is for Steward Ditch and the location was GPS'd by Roger Meyer, former watermaster for Water District No. 67-A.

Please be advised that the "Notice of Change in Water Right Ownership" form that I sent to you last week will change the name of this water right in the Snake River Basin Adjudication but not on this license. If you change the name in the SRBA there would not be a filing fee to submit the form. If the name change is requested before the license is issued there would be a \$25.00 filing fee to have the change processed. If you want your name on this license, please submit the "Notice of Change in Water Right Ownership" form, along with required documentation and \$25.00 filing fee with the signed amendment form.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-287-4953.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
