PROPOSED CHANGE OF WATER RIGHT

CITY OF IDAHO CITY of PO Box 130, Idaho City ID 83631 filed Application No. 71722 to transfer a water right with a 1945 priority date from Elk Creek totaling 0.36 cfs. The applicant seeks to clarify the diversion system and add another point of diversion for this municipal right. The existing system diverts shallow ground water considered tributary to the creek. A checkdam on the creek to stabilize the ground water system was temporarily authorized under drought relief in 2001. The applicant seeks more permanent approval for the checkdam in addition to clarifying that shallow ground water is part of this right as historically used. The existing diversion system is on and adjacent to Elk Creek about 0.3 mile northwest of the center of town.

For specific details regarding the application, please contact the Idaho Department of Water Resources (IDWR) Western Region at 208-334-2190 or visit www.idwr.idaho.gov with detail provided under "new water right applications". Protests may be submitted based on the criteria of Sec 42-222, Idaho Code. Any protest against the proposed change must be filed with IDWR Western Region, 2735 Airport Wy, Boise ID 83705-5082 together with a protest fee of \$25.00 for each application on or before March 3, 2006. The protestant must also send a copy of the protest to the applicant.
