RE: OWNERSHIP OF WATER RIGHTS 61-7298 AND 61-7265

Ladies and Gentlemen:

William H. Redd visited my office today requesting documentation for a future buyer that they have supplied the necessary paperwork to change the ownership of the above water rights into their name. This ownership has been received, and processing of the ownership changes has been delayed on these two rights until a proposed transfer has been completed. If the transfer is withdrawn, a simple change of ownership form can replace the transfer, and the rights can be put into their name.

All water rights are appurtenant to the land in a sale of a piece of property, unless they have been specifically withheld in the warranty deed. I did not find anything in my review of the proposed transfer to suggest any problems with ownership of the water rights at this time.

If you have any questions or concerns please contact me at the above address.

Respectfully,

A handwritten signature in black ink, appearing to read 'Daniel A. Nelson', followed by a horizontal line.

Daniel A. Nelson
Sr. Water Right Agent
