(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) .18 cfs and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works: pump & pipeline
a. Describe type and size of devices used to divert water from the source _____

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet

d. Is ground water with a temperature of greater than 85°F being sought? _____

e. If well is already drilled, when? _____; Drilling firm _____
Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is 2 years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____
- Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RE: Permit No. 97-7455

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being more prominent.

Shelley W. Keen

Water Rights Supervisor

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on March 10, 2006 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO. 97-7455

**LINGER LONGER CONDOMINIUM ASSN
C/O MANAGER
2374 KALISPELL BAY RD
PRIEST RIVER ID 83856-8677**

**Kari Lynn Townsend
Secretary**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: March 09, 2006
To: Water Right File 97-7455
From: eretelle
Re: permit review

No moratorium or WD.

Overlap with permit 97-7444 (see other 3/9/06 memo)
IDL permit required.

Recommend approval as suggested by IDWR Northern.

From: Robert Eastman [beastman@cet.com]
Sent: Thursday, March 09, 2006 9:48 AM
To: Keen, Shelley
Subject: RE: Application of Permit 97-7455

Shelley,

Referring to our telephone conversation, this letter is in response to your letter of March 3, 2006. The first application (97-7444) was an estimate of the area to be irrigated and was submitted by a person not familiar with flow rates or sprinkler system design. When I talked with Robert Haynes in the Coeur d'Alene office, he said we should submit a completely new application and let the first one expire. So to answer your first two questions, they are not additive. The area consists of 45 condo units (not included in the 4.1 acres), which gets heavy use during the summer. The 4.1 acres is basically open area that is used for recreation. Our practice is to water at night because of the daytime usage. The system we have designed can do that if we have the 0.044 cfs per acre rate or 0.18 cfs total. If you have any further questions feel free to call me at 509-922-3230 or e-mail me at beastman@cet.com. Thank you for your help.

RE: Application for Permit 97-7455

Dear Applicant:

The Department of Water Resources (IDWR) is reviewing your application to divert water from Priest Lake for irrigation purposes. The review process identified two issues that need to be addressed before the review can be completed.

First, the water use described on your application is very similar to the water use already authorized under Permit 97-7444. I have enclosed a copy of Permit 97-7444 for you to review. Are the 4.1 acres of irrigation requested on Application 97-7455 additional to the 2.5 acres described on Permit 97-7444, or do they overlap? Is the 0.18 cfs on Application 97-7455 to be added to the 0.07 cfs on Permit 97-7444, or is 0.18 cfs your total need?

Second, IDWR does not usually authorize a diversion rate in excess of 0.03 cfs per acre unless the area to be irrigated is public open space. In your application, you have requested a diversion rate of 0.044 cfs per acre. Will the irrigated area be public open space that needs to be irrigated in a short time because people occupy it the rest of the day, or is there another reason for requesting more than 0.03 cfs per acre? Please describe the nature of the irrigated space and your proposed irrigation practices.

Please respond to this letter in writing within 30 days. If IDWR does not receive a response from you in that time period, it will be assumed that you are no longer interested in your application, and it will be voided.

If you have any questions, please call me at 208-287-4947, or email me at shelley.keen@idwr.idaho.gov.

Sincerely,

Shelley W. Keen

To: 'Dianne.Ball@idwr.idaho.gov'
Subject: Application No. 97-7455

Hi Dianne,

We, the Department of Lands, do not have any issues with this application at this time. However, the applicant does need to go through our application process and obtain a permit through us as well. Our permitting process for a waterline does include an agency review period, so the applicant could expect about 60 days after we receive their application to receive a permit if our rules and regulations are met.

Also, Mick was wondering why the last two applications we've been asked for our comments on have not been on the joint application that we, you and the Corp. decided on a few years back. I wasn't aware of this but let me know if this would work for you or if your own applications work better for your processes. Also if there is anything I've been sending you that could help out when you review applications I send your way, let me know. I'm pretty new here so I'm still learning a lot!!

RE: Application for Permit No 97-7455

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Priest River Times on October 19 and 26, 2005. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Robert G. Haynes, P.E.

Dear Alicia:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application follows for your reference.

We are sending this to you for your comments, and would appreciate receiving your comments by no later than **November 4, 2005**. If we do not hear from you by that date, we will assume that no comment from you means you have no objection to, concerns about, or conditions pertaining to the issuance of this permit.

You may send comments by regular mail to the address above, by FAX to 769-1454, or by e-mail to Dianne.Ball@idwr.idaho.gov.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Dianne', is written in black ink.

Dianne Ball
Administrative Assistant
