Twin Falls, ID 83301

Dear Chuck:

You asked that I review our records to verify the year/years that we had a trailer connected to the well system on Lot #2 Gimlet Terrace.

During the building season (May through November of 1991 and 1992 which was the time we were finishing our home on Lot #6) we had an enclosed trailer on Lot #2 and since it had a bathroom facility in it and the well was closely adjacent we connected the water system to the trailer during the time it was there.

If I can furnish further information, please advise.

Sincerely,

Harry S. Rinker
