PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 84-12146

Dear Permit Holders:

The department acknowledges receipt of the proof of beneficial use ("proof") form submitted for the above-referenced permit. The next step in the process of developing a water right is for the department to conduct the field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have questions about the field examination, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Sincerely,

RE: Permit No. 84-12146

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

1. dball 2/3/2004 Legal Notice Remarks

Comment: Dometic use is for 14 homes.

2. dball 2/3/2004 Comment/Analysis

Comment: Place of use will be owned by individual lot owners within Woodland Meadows SUBDIVISION.

3. kwalker 7/28/2004 Application Review

Comment: I had originally reviewed this application in April of this year and returned it to Northern to obtain information regarding documentation for pre-1987 development. Application falls within Salmon-Clearwater moratorium area. The application was returned to me with a memo from region stating additional information should not be required. The region determined that there are no surface water streams within the area of this spring and the use of the spring would have no affect on the flows of the Clearwater River. Recommend approval.

Memorandum

To: 84-12146

From: Beardslee, Haynes

Date: July 9, 2004

Re: Northern Regional recommendations for approval

Northern Region recommends that this file be approved subject to the conditions of the Clearwater River Moratorium.

There has been no evidence submitted to suggest that the approval could negatively affect the flows of the Clearwater River in terms of diversion rate applied for and it's location.

The enclosed topographical map indicates that there are no surface water streams in the 40 acre tract where the spring is located that could potentially affect the Clearwater River.

Furthermore, Dwarshak Dam controls the flow of the North fork Clearwater River. IDWR Dam file records indicate a minimum annual flow of 2,157,000 AF and a maximum of 6,680,000 AF of stream flows through Dwarshak Reservoir.

Based on a common sense approach to review the information we have in our records and on the filing, we see no reason to request additional information from the applicant.

Subject: Applications for Permit that we discussed 4/12/2004

Hi, Al.

Pursuant to our telephone conversation yesterday, I am listing the applications that you have forwarded down to me that need additional information. Thank you very much for offering to work on these!! The applications are listed below, with the reasons for additional information, in case you lost your notes again.

84-12143 - Robert Lee - Located within Salmon-Clearwater Moratorium area. Application is for surface water for use in 2 ponds at 8.0 af, domestic use for 4 homes and stockwater use - Shelley reminded me that we are moving away from the 1/2 acre limit for ponds that can be authorized under the moratorium. See Application Processing Memorandum #67, page 4, that discusses ponds under domestic exemptions. I know how much you like to read rules so I am attaching memo #67 and the pond spreadsheet for your convenience.

83-11937 - Falls within Salmon-Clearwater Moratorium area. The spring is tributary to sinks but we still need to make sure the diversion will not affect fish migration. You were going to pursue something that details the Swift's plans regarding protection of the fish.

86-11906 - Falls within Salmon-Clearwater Moratorium area. Intends to irrigate 2 acres, wildlife, stockwater and domestic purposes from an unnamed stream trib. to Potlatch River. I believe you were going to contact Mr. Hammond to see if he would drop his irrigation use so we could process the application.

84-12146 - Falls within Salmon-Clearwater Moratorium area. This application claims a pre-87 development but we don't have anything to document that development. You were going to request documentation that provides evidence of the pre-87 development from this spring.

87-10028 and 87-10029 - Pullman-Moscow area. Need to show coordination with Washington Dept. of Ecology and the Pullman-Moscow Resources Committee. You told me that this was to be brought up at one of the meetings and then I would get some comments from Bob Haynes.

I am going to file these applications in our call-up drawer for 30 days. If I don't hear from you by then I am going to send the files back to you to **file in your moratorium hold drawer**. My office is getting so full of files I am afraid I will get lost in here and never get out. Thanks again for helping with these. I am sure going to miss you when you move over to the well construction section... Kay

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Clearwater Tribune on February 19 and 26, 2004. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,
