

Keith Wilson.

The New 8 inch
well had Bad water.
I will fill It In.

The New 16 inch
well has 78° water.
It will be used to
water crops only.

The old well
has good cold water.
It went Dry 2 years
ago But has water
now. We Are using
It for The homes now.

We just tried it
after you were here
and it has water,
now.

I hope we can
still use it, you
said it may need to
be filled.

Keith,

We will (have) abandoned the 78° well, and will fill it as you recommend.

If you need to talk with Brice, please call. You should be able to reach him tomorrow at the office or on his cell phone at 208-339-4803.

Thanks for your help!
Marlene Checketts
