RE: Transfer 70981 on claim 13-4332

Dear Mr. Checketts:

Transfer 70981 was filed on 13-4332 proposing to drill two wells to replace the original 16-inch well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$. The first replacement well was covered by the original claim but to drill a second well required the filing of the transfer.

The first well drilled resulted in 68-degree water that was too hot to be used in the dairy, and another replacement well was drilled. According to a fax received October 5, 2005, the 68-degree water well has been abandoned.

To determine how to proceed with transfer 70981 please provide the answers to the following questions:

1. Do you still need to drill another well? *No.*
2. Is the original 16-inch well still being used?

Please provide this office with this information on or before November 16, 2005. Your prompt response will be appreciated.

Sincerely,

Keith C. Wilson
Senior Resource Agent
