SUBJECT: App For Permit 72-16645, Marvin Strobe

I recently spoke with Mr. Strobe on a new application he filed on land just upstream from the land covered by 16645. He mentioned that he planned to drill a well and build a home on the first property as soon as 16645 is approved. He and his wife winter in Florida, but apparently spend their summers on the Salmon River. He said that we should continue to use the Clayton address for mail deliveries. He is definitely interested in pursuing this application.
