State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 96-09270

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **March 01, 2007**.
2. Subject to all prior water rights.
3. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
4. Domestic storage use is for 1 home.
5. Recreation storage and wildlife storage uses are for a reservoir.
6. The storage of water under this right is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 2nd day of March, 2006.

for KARL DREHER, Director

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

DEPARTMENT OF
WATER RESOURCES

1. Name of Applicant LOUIS J. BARIBAULT Phone 208-265-4250
Mailing address 422 S. JACOBSON RD. SANDPOINT ID 83864

2. Source of water supply UNNAMED CREEK which is a tributary of BOYER SLOUGH

3. Location of point of diversion is Township 58N Range 1W Sec. 33, in the SENE 1/4,
1/4, Govt. Lot 2144T, B.M., BONNER County;

additional points of diversion if any:

4. Water will be used for the following purposes:

Amount 15 AF for RECREATION STORAGE purposes from Sept 1/1 to July 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 15 AF for DOMESTIC STORAGE purposes from 9/1/11 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 15 AF for DOMESTIC FROM STORAGE purposes from 9/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 15 AF for WILDLIFE STORAGE purposes from 9/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) _____ and/or (b) 15 AF
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source Pond, 1200ft long x
Average of 60' wide

b. Height of storage dam 15 ft feet; active reservoir capacity 15 acre-feet; total
reservoir capacity 15 acre-feet

c. Proposed well diameter is Ø inches; proposed depth of well is Ø feet

d. Is ground water with a temperature of greater than 85°F being sought? Ø

e. If well is already drilled, when? Ø; Drilling firm Ø

Well was drilled for (well owner) Ø; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is Ø years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

a. Hydropower; show total feet of head and proposed capacity in kW. Ø

b. Stockwatering; list number and kind of livestock. Ø

c. Municipal; show name of municipality. Ø

d. Domestic; show number of households. 1 (Sand Filter from Lake)

e. Other; describe fully. used for wildlife production, (Ducks & Geese etc.)

Recreation, Swimming

RECEIVED

JUL 20 2005

RE: Permit No. 96-9270

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being more prominent.

Shelley W. Keen

Water Rights Supervisor

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on March 3, 2006 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

96-9270

**LOUIS J BARIBAULT
422 S JACOBSON RD
SANDPOINT ID 83864**

A handwritten signature in black ink, reading "Kari Lynn Townsend", written over a horizontal line.

**Kari Lynn Townsend
Secretary**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: March 02, 2006
To: Water Right File 96-9270
From: eretelle
Re: permit review

No WD or moratorium.

No overlap or protest.
Comment from F&G

Recommend approval as suggested by IDWR Northern.

MEMO

To: File #96-9270
From: Greg Taylor 
Date: 2/22/06
Re: Fish & Game Letter

Below are my comments regarding the F&G letter dated 2/19/06

WHO: IDF&G - MARY TERRA-BERNS

RESPONSE: Conditional Recommendation

DATE RECEIVED: 2/22/2006

We recommend applicants be required to install lines during low water when underwater excavation will be minimized. Dug materials should be sidecast to only one side and the bottom contour and substrate restored. Any unburied sections of line should be anchored on bottom to prevent floating, and applicant should also provide smooth cover for pump, all to prevent interfering with boat anchors or anglers lines or capturing debris. It is preferable to place pumps on land rather than in the water. Water intakes should be screened with maximum mesh size of 0.25 inches to prevent entrainment or impingement of fish; approach velocities not to exceed 0.5 ft per second to prevent losses of juvenile fish. Condition with F&G screening and velocity requirements. Additionally, applicant should obtain necessary encroachment permits from IDL before installing water lines and pumps in state waters. Dept of Lands does not have jurisdiction.

Recommend against permitting construction of on-stream pond. Small perennial and intermittent streams serve many important biological functions that deserve protection. In-stream impoundment may contribute to elevated stream temperatures, impede migrations of amphibians and have other potentially adverse impacts on water quality and stream function. We recommend applicant be required either to withdraw water from creek on as-needed basis or install storage off-stream. The dam is currently in place. It was built by one of the previous owners and has been there since at least 1998, according to DOQQ. This permit is to bring applicant into compliance with state water law. According to Dave Lepard the dam has trees growing on it that are at least 10 years old.

If IDWR does permit in-stream impoundment, applicants should be made aware that any structure intended to impound water must be designed, installed and maintained to allow fish passage per Idaho code 36-906. This Application for Permit, when approved, does not sanction violations of rules or laws required by other State or Federal agencies, including Fish & Game

A permit is required prior to stocking private ponds with fish. Unless fish to be stocked are delivered by a commercial hatchery (required for trout) applicant must acquire a fish transport permit to bring fish to pond. Both permits readily available from IDF&G. Recreation use on application only mentions swimming, not fishing or fish.

Recommend this Permit be **Approved**.

RECEIVED
FEB 22 2006
IDWR/North

Via email to Dianne Ball:

REFERENCE: 96-9270 BARIBAULT

We have reviewed the above named application to withdraw 15 acre-feet from an unnamed stream, which is a tributary to Boyer Slough for recreation storage, domestic, domestic from storage, and wildlife storage from January 1 to December 31.

If a line and pump are placed in the creek and excavation is necessary, we recommend that applicants be required to install the lines during low water when underwater excavation will be minimized. Dug materials should be sidecast to only one side and the bottom contour and substrate restored. The pump should be screened to prevent entrainment of fish; the maximum screen mesh size should be 0.25 inches. In addition, pump approach velocities should not exceed 0.5 ft/second to prevent losses of juvenile fish. It would be preferable to place pumps on land rather than in the water. Additionally, the applicant should obtain necessary encroachment permits from Idaho Department of Lands before installing water lines and pumps in state waters.

We recommend against permitting construction of a pond on the stream. Small perennial and intermittent streams serve many important biological functions that deserve protection. An in-stream impoundment on Barker Creek may contribute to elevated stream temperatures, impede migrations of amphibians and have other potentially adverse impacts on water quality and stream function. We recommend that the applicant should be required either to withdraw water from the creek on an as-needed basis or install storage off-stream. Water intakes should be screened to prevent entrainment or impingement of fish. The maximum screen mesh size should be 0.25 inches; approach velocities should not exceed 0.5 ft/second to prevent losses of juvenile fish.

If IDWR does permit an in-stream impoundment, the applicants should be made aware that any structure intended to impound water must be designed, installed and maintained to allow fish passage per Idaho Code 36-906.

Finally, we note that the applicant intends to create recreational storage. If the applicant is intending to stock fish they should be informed that a permit is required prior to stocking private ponds with fish. In addition, unless the fish to be stocked are delivered by a commercial hatchery (required for trout), the applicant must acquire a fish transport permit to bring fish to the pond. Both permits are available from Idaho Department of Fish and Game.

Thank you for the opportunity to comment.

RE: Application for Permit No 96-9270

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Bonner County Daily Bee on February 2 and 9, 2006. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Re: Water Permit Application No. 96-9270 Baribault

Dear Mary:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application follows for your reference.

We are sending this to you for your comments, and would appreciate receiving your comments by no later than **February 17, 2006**. If we do not hear from you by that date, we will assume that no comment from you means you have no objection to, concerns about, or conditions pertaining to the issuance of this permit.

You may send comments by regular mail to the address above, by FAX to 769-1454, or by e-mail to Dianne.Ball@idwr.idaho.gov.

Please contact this office if you have any questions regarding the application.

Sincerely,

Dianne Ball
