Subject: Last Ranch LLC transfer application

Dear Mr. Warner,

On behalf of our client, Last Ranch, LLC, we are pleased to submit the enclosed application for transfer. The transfer proposes amending the decreed place of use to recognize three existing wells that feed a common, interconnected delivery system. After the transfer water rights 34-10885, 34-7076, and 34-2312 will share a common 588-acre permissible place of use (PPU) and will list the same three points of diversion, located in Custer County, Idaho. Surface water rights also appurtenant to the property already describe this 588-acre PPU and are therefore not included in this application.

Also enclosed is a check payable to Idaho Department of Water Resources for \$690 to cover transfer application fees. If you have any questions regarding this application, or if you require additional information, please contact me.

Sincerely,

Scott N. King, P.E.
Senior Project Engineer
