Re: Transfer Application. 72572

Dear Mr. Andrus

Thank you for the opportunity to work on your transfer application. Having gone through additional review with allocations staff, there were some issues that were recognized that require resolutions. They are:

1. The total amount of the transfer is for the amount of 7.56 cfs as was decreed on the combined limits for the associated rights. This does not change the fee but probably should be changed upon the application.
2. The location of the point of diversion for the King Creek Pipeline is different than what has been listed upon the transfer. Please change the QQQ to read "NWSWSE."
3. Included are two maps showing the points of diversion as requested including the location of King Creek pipeline. We feel this is accurate but wish you to review and verify.

For all three items, if you would please review, change, verify and initial your acceptance and return we will proceed.

I apologize for the inconvenience and commit to timely addressing your matter personally. As always, feel free to call or stop by if you have any questions.

Sincerely,

W. Roger Warner  
Water Right Supervisor – Eastern Region

Encl. Original front page of transfer application 72572 for changes and to be returned  
Two aerial photo maps showing location of proposed PODs for review and verification.
