RE: Water Right 31-07364

Dear Mr. Ashcraft:

We have been advised that the above referenced water right was decreed in the Snake River Basin Adjudication (SRBA) and find that we have a numbering problem with this right.

Permit No. 31-07364 was approved for the use of a well for stockwater purposes in June of 1981. In June of 1986, the permit lapsed for failure to submit proof of beneficial use. You submitted a claim in the SRBA for this water use on November 30, 1988. Normally your water right would have been lost since you did not complete the licensing procedure. However, since the use claimed meets the criteria of an acceptable beneficial use claim, we can recognize your water use as partially decreed.

Since our water right records for number 31-07364 show that this right is no longer valid, we find that we need to complete a number change on the partially decreed right. The new number for your water right is 31-11708. Enclosed is a copy for your records. Please refer to this number when corresponding with our office regarding this water right.

If you have any questions or concerns regarding this matter, please do not hesitate to contact our office.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
