Administrative Assistant
Water Allocation Bureau

RE: Lapsed Permit No. 13-7560

Dear Deborah,

I'm writing in regards to the above shown water right. I did receive an extension of time to finish the pond as I requested until December 1, 2000.

In the early fall of 2000, Triple C Concrete dug the pond for use of the soil. They hauled it to various places for fill. They went out of business in the spring of 2001, and moved away. Jeff Coates was the manager and was reinstated with the company somewhere around Twin Falls, Idaho.

On November 18, 2000, Douglas Porter of Porter Rock and Gravel came in with his excavator and shaped the pond and built the banks around it.

On November 20th and 21st, Gary Oliverson, who works for Irrigation Aid, dug the ditch and put in the pipeline. Thus, completing the pond and making it ready for use.

It was then my fault for not submitting "Proof of Beneficial Use" before December 1st, 2000. It was not received by the Dept. of Water Resource until January 8th, 2001.

I have checked with the SCS and the USDA, and enclosed are the only arial photos they have. They have earlier slides but they are before the year 2000.

The only cost for the pond was to Irrigation Aid for pipe and backhoe hours. Irrigation Aid has no records for 2000 that they can find. This company is located at 472 North State Street, Preston, Idaho 83263 – phone 852-3300.

My basement flooded in the spring of 2005 and old returned checks and stubs were destroyed and thrown away. My bank now, Wells Fargo, formerly First Security which I was banking with in 2000, can get check copies, but will only pull up individual checks if the number is known.

Irrigation Aid is the only cost I have to the pond since Douglas Porter has been a close friend and came with his equipment on a Saturday, November 18th, 2000 and did this work for no charge.

When I asked Gary Oliverson if he could remember the work or time, he was able to aquire it from a log book that he keeps while operating the backhoe.

Please find enclosed the photos and the statement from Douglas Porter and Gary Oliverson, the Proof of Beneficial Use, and a check for \$50.00.

Please let me know what I need to do at this point.

Thank you,

A handwritten signature in cursive script that reads "Ed Moser".
