Re: Permit #25-07654

Greetings:

The subject permitted well has been drilled, tested satisfactory, cased and tv inspected. We have employed a consultant for construction document preparation and expect construction of the pump house and piping work to begin in early 2004. The project is planned to be online and beneficial use completed before November, 2004.

Please process this time extension request accordingly.

Thank you for your assistance.

Sincerely,

A handwritten signature in cursive script that reads "Carroll Aamold".

Carroll Aamold, Water Supt.

Cc: Roger Warner, Dept. of Water Resources, Idaho Falls
