State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 87-10028

Priority: September 22, 2003

Maximum Diversion Rate: 0.07 CFS

This is to certify, that CHRISTOPHER SCOTT REISENAUER
3240 MOUNTAIN VIEW RD
MOSCOW ID 83843

has applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
DOMESTIC	01/01 to 12/31	0.04 CFS
IRRIGATION	03/15 to 10/31	0.03 CFS

LOCATION OF POINT OF DIVERSION:

GROUND WATER NW¼NE¼ Sec. 33, Twp 40N, Rge 05W, B.M., LATAH County

PLACE OF USE: DOMESTIC

Twp Rge Sec	NE	NW	SW	SE	Totals
40N 05W 33	NE NW SW SE X	NE NW SW SE	NE NW SW SE	NE NW SW SE	

PLACE OF USE: IRRIGATION

Twp Rge Sec	NE	NW	SW	SE	Totals
40N 05W 33	NE NW SW SE 1.0	NE NW SW SE	NE NW SW SE	NE NW SW SE	1.0

Total Acres: 1

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **September 01, 2005**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
4. Domestic use is for 1 home. Irrigation of lawn, garden and landscaping associated with the home is authorized under the irrigation component of this right.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 7th day of September, 2004.

APPLICATION FOR PERMIT

IDWR/North

Department of Water Resources

To appropriate the public waters of the State of Idaho

1. Name of Applicant Christopher Scott Reisenauer Phone (208) 882-1189
Mailing address 3240 Mountain View Road Moscow, ID 83843
2. Source of water supply Groundwater (well) which is a tributary of N/A
3. Location of point of diversion is Township 40N Range 05W Sec. 33, in the NE 1/4,
NW 1/4, NE 1/4, Govt. Lot 3, B.M., Latah County;
additional points of diversion if any: none

4. Water will be used for the following purposes:

Amount 0.021 for DOMESTIC purposes from 4/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 0.03 for IRRIGATION purposes from 3/15 to 4/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 0.071 and/or (b) none
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source _____
1/2 inch PVC - reduced 1/2 inch after valve

b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total
reservoir capacity N/A acre-feet

c. Proposed well diameter is 6 inches; proposed depth of well is _____ feet

d. Is ground water with a temperature of greater than 85°F being sought? No

e. If well is already drilled, when? 9/21/00; Drilling firm Uhlenkott Drilling - Moscow, ID
Well was drilled for (well owner) Dave Bizeau - sold to Reisenauer; Drilling Permit No. 166725 D-13741

7. Time required for completion of works and application of water to proposed beneficial use is
- i
- years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

a. Hydropower; show total feet of head and proposed capacity in kW. N/A

b. Stockwatering; list number and kind of livestock. N/A

c. Municipal; show name of municipality. N/A

d. Domestic; show number of households. one (1)

e. Other; describe fully. Single family residence - lawn/garden/landscaping
irrigation - total area approximately 1 (one) acres

3. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
40N	05W	33		1															
				0															

Total number of acres to be irrigated one

10. Describe any other water rights used for the same purposes as described above. None

- Who owns the property at the point of diversion? Christopher S. and Clara B. Reisenauer
- Who owns the land to be irrigated or place of use? Christopher S. and Clara B. Reisenauer
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

12. Remarks: Well for home use (single family dwelling) and 3/4 acre lawn w/ flower beds.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8 1/2"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

MOSCOW ID 83843

RE: Permit No. 87-10028

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being more prominent.

Shelley W Keen

Water Rights Supervisor

SWK:klt

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on September 7, 2004 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

87-10028

**CHRISTOPHER SCOTT REISENAUER
3240 MOUNTAIN VIEW RD
MOSCOW ID 83843**

A handwritten signature in black ink, appearing to read "Kari Lynn Townsend", written over a horizontal line.

**Kari Lynn Townsend
Secretary**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

	Latah County: Tom Stroschein, County Commissioner		Whitman County:
	Colfax: Emily Adams: City Administrator	X	Colfax: Andy Rogers: Public Works Supervisor

VISITORS: John Burl*, WSU; Nancy Chaney, Moscow City Council; Keven Gardes, Deputy Public Works Director for City of Pullman; Kent Keller, WSU; Cheryl Morgan, Pullman Property Owner WRIA 34 PU; Bob Haynes, CDA Regional Manager IDWR.

1. **Approval of the June 24, 2004 Meeting Minutes:** Rob Corcoran, the PBAC Chair called the meeting to order at 2:35pm. The minutes of the June 24, 2004 meeting were amended, items 2 and 3. Minutes were approved unanimously. (impt amendments are listed, minor or grammatical amendments are approved "with minor or grammatical amendments".
2. **Water Right Applications – Bob Haynes, the IDWR regional manager, presented two applications asking for increases in existing water rights that are in the shallow aquifer in the vicinity of Moscow.** According to the agreement between PBAC and the State of Idaho PBAC needs to assure the State that any non-exempt water right applications or changes in

application are consistent with the Plan for the Palouse Basin. Since both requests are for small increases in pumping from the shallow aquifer, which is being recharged in excess of current pumping and without any known adverse side effects, both requests are acceptable according to the PBAC Plan of management for the Palouse Basin. Christopher Reisenauer, at 3240 Mountain View Road - located about 1 mile north of Moscow, is asking for a permit expansion to include the irrigation of one more acre than his current permit would allow. His well is a 173 ft deep in the shallow aquifer and produces 12gpm, which is about a fourth of what he is asking for. It was moved to approve the increase in his water right. The motion passed unanimously.

The second application was submitted by Mr. Steven Berry, who owns Bel-Air Mobile Park at 1751 North Polk Extension. He needs to expand his water right to legally cover all the existing mobile home and irrigation uses. Two wells exist on his property and he is currently pumping these wells at capacity. He is asking that the water right be increased to 0.2 cfs. The ground water is supplying domestic water to 58 mobile homes and 3 frame homes and irrigation to two five acre tracts within the Moscow city limits. Kirkland talked with Mr. Berry and he has requested hook up to the City of Moscow water system as soon as possible since his wells are at capacity during irrigation season. Les MacDonald requested that a decision on this application be postponed for one month to see what the feasibility is for hooking the Bel-Air Mobile Park up to the City of Moscow water system. Bob Haynes said a decision is needed now because the current water right is out of compliance. The question asked of the committee is whether it is in conflict with the Palouse Basin Plan. PBAC is supposed to make sure water usage is in the public's best interest. A motion recognizing that the change in Steven Berry's water right application for the Bel-Air Mobile Park was in compliance with the PBAC water management Plan for the Palouse Basin was approved.

3. **Progress Report on PBAC GIS Data Base and Information Management – Farida Leek:**
Ms. Leek, who is a doctoral student at WSU, is compiling the GIS database for PBAC under the supervision of Professor Joan Wu. Her Power Point presentation to PBAC was entitled "*Developing a Hydrogeology Database for Palouse Basin Aquifer.*" The Washington and Idaho. Ground water is the sole water supply source for the Pullman-Moscow area. This area has undergone water level decline of 1-2 ft/yr in the past 100 years. Previous studies have yielded different predictions and are inconsistent with current field observations. Objectives: to characterize the hydrogeology of the PBA system, to develop GIS database, and to eventually perform ground-water flow modeling. PBA is divided into four vertical geologic zones. Graph displays water levels over an 80 year period (1923-2003). It shows that Grande Ronde is dropping yearly, while Wanapum and Palouse Loess are stable. Developing a GIS database is important for future predictions. Creating a GIS database will include topography and land use, stream network, soil and geology and aquifer and wells. Various types of maps give useful information for predicting water levels. Other maps show cross sections of the aquifers that include water levels, significant wells that have been drilled. Information shows that Moscow and Pullman have similar water levels and they are connected. There appear to be geological barriers to the northwest and the southwest. Ms. Leek demonstrated how to access the GIS and the reference manager. Larry stated that PBAC would be getting GIS and RM so that other people could access this

information. Current and future efforts include building RM database, include many more wells in the GIS database, GIS spatial analysis and continue to develop hydrogeologic cross sections. Questions were raised about public access – if the proper program is any computer then the information can be accessed. Discussion of how the basalt that makes up the Grande Ronde flows shows that there is a slight blockage between Moscow/Pullman area and Colfax area. Question of age dating in the Colfax areas show that the area is similar to Pullman.

4. **Request to Purchase 12 additional Loggers:** The new budget sheet was discussed see item below. Amount requested is \$10,000. This is so that we don't have to move the logger around so much. The cost is \$750-\$850 per logger. These loggers would be for the shallow aquifer. Motion to purchase the loggers, and the motion passes.
5. **Reports and Announcements**
 - a. **Status of IDWR Order regarding Idaho Portion of Palouse Basin – (1)** A draft is being put together that is being looked at by the legal staff. A coalition of groups from the Moscow area have asked the director of water resources for several things. They have asked that the Grande Ronde be classified as a critical groundwater area and Wanapum be considered a groundwater management area.
 - b. **Naylor Farm Intervener hearing on June 25, 2004: (2)** The purpose of the conference was to explore for any grounds of compromise between Naylor farms and Latah County and Whitman County. It is to come to some kind of an agreement so that all parties are satisfied with the decision and the issue can move forward. Lois Blackburn and Kelly Moore expressed concern regarding impact on other community members. September 26, 2004 is the final date for both parties to come to an arrangement.
 - c. **Golder Associations Project Review for Idaho Interim Nat. Res. Leg Comm: (3)** \$1320.00 to do the review that was asked for. To do an outside review on the projects that were to be submitted to legislation.
 - d. **Memorandums of Agreement:** Kirkland stated that there was a change in how the money was spent. These were three, two year projects and PBAC authorized an expenditure of \$36,558 for the Gravity project, \$31,570 for the Shallow Aquifer and \$30,870 for the Deep Aquifer projects for a total of \$99,000. It was requested to have a final okay before they were finished. Approval is requested by Larry Kirkland. Motion to approve, no discussion. Motion is approved.
 - e. **The changes that were asked for have been changed.**

6. **NEW BUSINESS:** Pullman passed new water and sewer rates. Moscow's annual Consumer Confidence Report went out this month.
7. **NEXT MEETING DATE**

Thursday, August 19, 2004 at 2:30 pm

UNIVERSITY OF IDAHO FACILITIES MANAGEMENT

The meeting was adjourned by consensus.

Respectfully Submitted,

Larry Kirkland

Note: these minutes are submitted in draft form and have not yet been approved by the Committee.

Subject: Applications for Permit that we discussed 4/12/2004

Hi, Al.

Pursuant to our telephone conversation yesterday, I am listing the applications that you have forwarded down to me that need additional information. Thank you very much for offering to work on these!! The applications are listed below, with the reasons for additional information, in case you lost your notes again.

84-12143 - Robert Lee - Located within Salmon-Clearwater Moratorium area. Application is for surface water for use in 2 ponds at 8.0 af, domestic use for 4 homes and stockwater use - Shelley reminded me that we are moving away from the 1/2 acre limit for ponds that can be authorized under the moratorium. See Application Processing Memorandum #67, page 4, that discusses ponds under domestic exemptions. I know how much you like to read rules so I am attaching memo #67 and the pond spreadsheet for your convenience.

83-11937 - Falls within Salmon-Clearwater Moratorium area. The spring is tributary to sinks but we still need to make sure the diversion will not affect fish migration. You were going to pursue something that details the Swift's plans regarding protection of the fish.

86-11906 - Falls within Salmon-Clearwater Moratorium area. Intends to irrigate 2 acres, wildlife, stockwater and domestic purposes from an unnamed stream trib. to Potlatch River. I believe you were going to contact Mr. Hammond to see if he would drop his irrigation use so we could process the application.

84-12146 - Falls within Salmon-Clearwater Moratorium area. This application claims a pre-87 development but we don't have anything to document that development. You were going to request documentation that provides evidence of the pre-87 development from this spring.

87-10028 and 87-10029 - Pullman-Moscow area. Need to show coordination with Washington Dept. of Ecology and the Pullman-Moscow Resources Committee. You told me that this was to be brought up at one of the meetings and then I would get some comments from Bob Haynes.

I am going to file these applications in our call-up drawer for 30 days. If I don't hear from you by then I am going to send the files back to you to file in your moratorium hold drawer. My office is getting so full of files I am afraid I will get lost in here and never get out. Thanks again for helping with these. I am sure going to miss you when you move over to the well construction section... Kay

RE: Application for Permit No 87-10028

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Moscow Pullman Daily News on March 4 and 11, 2004. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

RE: Application for Permit No. 87-10028 and 87-10029

Dear Lorraine:

Following this "cover letter" you will find a legal notice which we wish to have published in your newspaper on the dates indicated. March 4 and 11, 2004, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 03/22/2004. Your cooperation is GREATLY appreciated, as always.

Sincerely

Dianne

Dianne Ball
Administrative Assistant

RE: Water Right Application with fee.

Dear Mr. Reisenauer:

We are returning your check Number 649 in the amount of \$250.00.

The fee for your water right application for the amount of water you plan to use will be **\$100.00**.

The fee originally paid by Mr. Bizeau for the well drilling permit was \$75.00. That fee was for a single-family domestic use **[which includes one home and up to but not more than 1/2 acre of lawn, garden(s) and landscaping]**. Had Mr. Bizeau applied for a permit to include more than the single-family domestic usage as described above, the fee would have been \$200.00. Therefore, a fee in the amount of **\$125.00** is required to upgrade your well from a single family domestic usage to include the amount of irrigation you will be using.

It takes quite a while to process a check and then have the State Office issue a refund for the difference. As a result, we are returning your check Number 649 in the amount of \$250.00 and request that you issue a new check in the lesser amount of **\$225.00**. Upon receipt of that, we will be able to begin processing your water right application.

Thank you for your assistance in this matter.

Sincerely,

Dianne Ball
