

MEMORANDUM

Date: February 14, 2006
To: Water Right File 63-11390
From: kwalker
Re: License Review

In review of this permit for licensing I found the examiner had recommended 137.5 acres of irrigation. 31 of these acres, located in NESE, S16 are covered under Licenses 63-7576 (23 ac) and 63-9432 (8 ac) from the same source of water. I have removed these 31 acres from this proposed license. Also, the number of acres found for each 40 acre tract are different than examiner found. I created GIS shape in arc view and let arc view determine the acres per tract. No other place of use overlaps were identified.

Measuring device requirement was removed by Order dated 1/8/1991.

Examiner recommended licensing permit at 1.7 cfs, however, only 1.69 cfs was found diverted. Recommend licensing these lands for 1.69 cfs.
