RE: Permit # 85-15422

DEAR I.D.W.R.

I HAVE BEEN COMPLETED WITH MY WATER PROJECT, ENOUGH TO FILE FOR THE "PROOF OF BENEFICIAL USE", THREE TIMES, BUT MY METHOD OF DIVERSION AT THE P.O.D. HAS FAILED AND I AM IN THE PROCESS OF CORRECTING THE PROBLEM.

I INSTALLED THE WATER INTAKE AT THE CREEK (P.O.D.) AND PIPED IT INTO THE HOLDING POND. FROM THE HOLDING POND I INSTALLED A FOOT VALVE AND A PRIMING "Y". I THEN DUG APPROX. 800' OF DITCH FOR A 1 1/2" PVC SUPPLY PIPE TO A 1550 GAL. HOLDING TANK. A 2HP WATER PUMP FEEDS A SPRINKLER & IRRIGATION SYSTEM.

I HAVE BEEN & WILL USE THE WATER FOR IRRIGATION OF FRUIT TREES, BERRY BUSHES, SHADE TREES, ENOUGH LAWN AROUND THE HOUSE TO CREATE A DEFENSIVE "FIRE ZONE", AND WATER FOR BIRDS & ANIMALS. I HOPE SOME DAY TO CREATE A SMALL POND FOR FISH & WATER FOWL?

IN MAY OF 2004 MY WIFE & PARTNER OF 47 YEARS WAS DIAGNOSED WITH UTERINE & OVARIAN CANCER. WE HAVE SPENT MOST OF OUR (I AM THE CAREGIVER) TIME IN DRS OFFICES, HOSPITALS, OR ON THE ROAD TO OR FROM. WE HAVE HAD TO TRAVEL AS

FAR AWAY AS CHICAGO ILL. FOR TWO & THREE MONTHS  
AT A TIME. THE TIME & EFFORT SPENT ON PAT'S HEALTH  
HAS BEEN VERY WORTHWHILE AS SHE IS IN REMISSION, BUT, IT HAS  
ALSO BEEN DIFFICULT TO MAINTAIN OUR PROPERTY &  
WORK ON OUR WATER SYSTEM.

TO DATE WE HAVE SPENT APPROX. \$6000.00 ON  
THE WATER SYSTEM, PLUS A LOT OF LABOR!

SINCERELY
