Mr. W. Roger Warner
Water Rights Supervisor – Eastern Region
Idaho Department of Water Resources
900 North Skyline Drive, Suite A
Idaho Falls, ID 83402-1718

Dear Mr. Warner:

This has indeed been a long process, but I believe the additional necessary documents required to process the transfer of our water from the "north farm" to the "south farm" are enclosed.

Before Harold Jones left, I gave him a listing of the water of record on the two farms, adjudicated in UP&L vs. Last Chance Canal Co. filed in 1920.

Trout Creek, Middle Fork

#350.	0.4 cfs	1901	13-749 ✓
#355.	0.8 cfs	1884	13-754 ✓
	0.8 cfs	1889	13-755 ✓
	1.2 cfs	1901	13-756 ✓

Trout Creek, South Fork

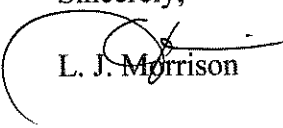

#374.	1.0 cfs	1871	13-788 ✓
	1.0 cfs	1882	13-789 ✓
#378	0.4 cfs	1900	13-795 ✓

The application which Mr. Jones sent me (enclosed) shows only #355. We do not want to lose any of the water, and would like to include all above referenced water in this transfer request.

I (we) certainly appreciate the time and the courtesy you have given in this process. I must leave the U.S. again on assignment for a brief period, but I still monitor my e-mail (DRLJMORRISON@AOL.COM) and my sister, Mary Jo Morrison, can be contacted in Salt Lake City, at (801) 485-9113 (home) or (801) 699-6661 (cell).

Thanking you again for your kindness, I remain,

Sincerely,

L. J. Morrison
