CONDITIONS/REMARKS:

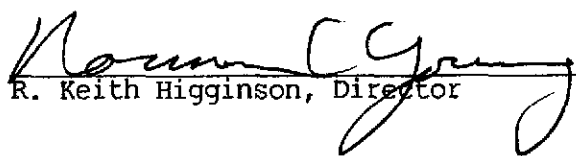

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

Dear Mr. and Mrs. Marker:

Re: Permit No. 95-7933

I've reviewed the statement of beneficial use postcard received in this office on June 11, 1984 and find that you presently have one domestic and intend to build another in the future.

If the water system has been stubbed in for the second home, I will accept the statement of beneficial use postcard for this project and the license can be issued for two domestic households. If the water system has not been stubbed in, I suggest you file an extension of time (form enclosed) for an additional period of time in which to complete this second home if the completion date is to be in the next five years. If not within the next five years and since the source of water is a spring, you will then need to file a new application for permit within one year of the time you will actually start construction on the home.

I will hold the statement of beneficial use postcard until August 15. If I do not hear from you, I will accept the statement of beneficial use postcard. If you wish to discuss this matter further, please feel free to contact me at 334-4290.

Sincerely,
