SUBJECT Availability of water in Rathdrum Creek.

Because of change in use patterns of water in the Twin Lakes-Rathdrum Creek area and lack of data on runoff it is impossible to make any judgements on availability. There have been quite a few applications for water filed; however, just how serious the applicants are is difficult to determine. The question of using water is not one that they thought of but one that was brought to their attention by the adjudication and I'm positive some of the applications were filed because "maybe I might want to use the water sometime". I know of no way of determining the number of those.
