Dear Mr Johnson

In regards to Permit # 95-7738, to allow the entire 40 acres of our property to be irrigated, and included in the permit:

The dark part on the aerial photograph is Bull Pine trees and my pasture for the cattle we have in the summer time are on this part of our property. In order to keep it in grazing condition, in the summer months, we must cover it periodically with the irrigation.

So if there are any questions arising, please have your field examiner come out and check the area again.

Dear Mr. Johnson:

The only change I would like to make is the beneficial use.

I would like it to include the whole 40 acres, instead of 30 acres. The additional ten acres, is in pasture and requires irrigation during dry periods in the summer months.

Please change the Beneficial use to read: Irrigation of 40 acres within the NWSW, Section 1, Twp. 51 N., Rge, 5 W.

Thank you.

Dear Mr. Meyer:

Thank you for your letter of 8/19/1981 regarding Permit No. 95-7738. In reviewing your request to allow the entire 40 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1, Twp. 51N, Rge. 5W, it appears from an aerial photo graph (enclosed) that not all of the 40 acres are irrigated.

Please review the enclosed photo graph. If you still feel we have errored in our evaluation of irrigated land, please let me know and I will return the field exam to our field examiner in Coeur d'Alene and he will schedule another examination.

If you have any questions, please let me know.
